	Veritas Enterprise Vault.cloud	Veritas Enterprise Vault.cloud Enhanced
Monthly Charge	\$5.01 per user	\$6.45 per user

Information about the service

Veritas Enterprise Vault.cloud service is a cloud based email archiving service that archives internal and external emails off-site, while providing access to emails after they've been archived. You need a licence for each user of the application. Your email system or other relevant system must be permanently connected to the Internet with a fixed IP address (not through dial-up or IDSN) to use the Veritas Enterprise Vault.cloud service.

Availability

Veritas Enterprise Vault.cloud is available to business customers with a valid ABN/ACN/ARBN and can be purchased from the **Telstra Apps Marketplace**, a web-based portal.

Telstra Apps Marketplace

You need an internet connection to access Telstra Apps Marketplace. To create an account for your organisation and start using the **Telstra Apps Marketplace**, click on the **create an account** option at the top of the web page. You need to meet minimum system requirements to use certain applications available on the marketplace, which will be set out on marketplace.telstra.com and in **Our Customer Terms**. You're responsible for ensuring that you meet these requirements.

What's included

When purchasing Veritas Enterprise Vault.cloud, you will have the choice between either a Veritas Enterprise Vault.cloud or a Veritas Enterprise Vault.cloud Enhanced plan, as described below.

Other Important Information

- The maximum email size (including attachments) that can be ingested by the Veritas Enterprise Vault.cloud™ service is 50MB.
- The Veritas Enterprise Vault.cloud™ service doesn't replace your need to backup your mail server locally. In the event that you need to rebuild your mail server, you should rebuild it from locally managed data rather than from the Veritas Enterprise Vault.cloud service archive.
- We'll keep your data for 120 days after the expiry of your initial term or the date your service otherwise ends. You need to tell us in writing before that date if you want a copy of your data, in which case we'll supply one to you in PST format via hard disk media (up to 2TB per month) until all your data is returned to you. You'll need to pay us our (or our supplier's) current rates for this work. If you don't ask us to do this we will delete your data.
