

## PNB Bank Improved Its Website Development & Hosting With Cyfuture

## Client

---

Punjab National Bank is one of the largest Public Sector Banks with more than 6000 Branches/Offices and more than 8000 ATMs geographically located all across India. The Bank is fully computerized and networked in order to achieve the effective and efficient customer services with complete Back office operations. Bank offers various technology driven products like Internet banking, Mobile banking etc.

## Business Need

---

The client needed website designing, development, and hosting, including servers that can easily accommodate their dense traffic demands. In addition to this, the client required a disaster recovery and business continuity service for future-proofing its business architecture.

## Business Solution

---

Cyfuture provided the client a dedicated team of experts to re-design and develop a responsive website. To meet huge traffic demands, a range of servers were deployed along with robust load balancers in Cyfuture resilient data center facility in Noida branch. In addition to this, tried and tested disaster recovery and business continuity solutions were offered to PNB for its seamless business functionality. The server is supported by guaranteed 99.95% network uptime and unlimited technical support.
