Greetings

I came upon your web site while looking for something else.

I'm appending a chart below of what I have for your Light ancestry and I'd be indebted to you for any additions or corrections you might be able to make.

For several years I've been researching the descendants of Jacob Light who settled in the Conestoga Valley of PA around 1718. In 1996 I put out a book titled "Jacob Light of the Conestogoe" which consisted of three parts; brief biographical material relating to the first three generations, copies of pertinent deeds, wills, etc. and a genealogy. The book is out of print now due mainly to the fact that the genealogy only contained 5,924 descendants whereas my file now has 29,689. Thinking that you would be interested in this part of your heritage I'm attaching three files. The first "Gen3" is just a listing of the first three generations as currently known. This might make it easier to follow the others. The second "Light Book" is the biographical material mentioned above. The third "Exhibits" is an index to the documents mentioned above.

Your ancestor second generation Anna Light is one of my favorites. When her husband died in his forties she was left with small children yet she took over the management of the farm and mills. She didn't turn them over to her sons until they were grown men. She was executrix of her husband's estate and signed her own will in a neat German script. All remarkable accomplishments for a woman of her time. She must have been a woman of grit and determination.

Hope to hear your comments.
