JOEY WEISER

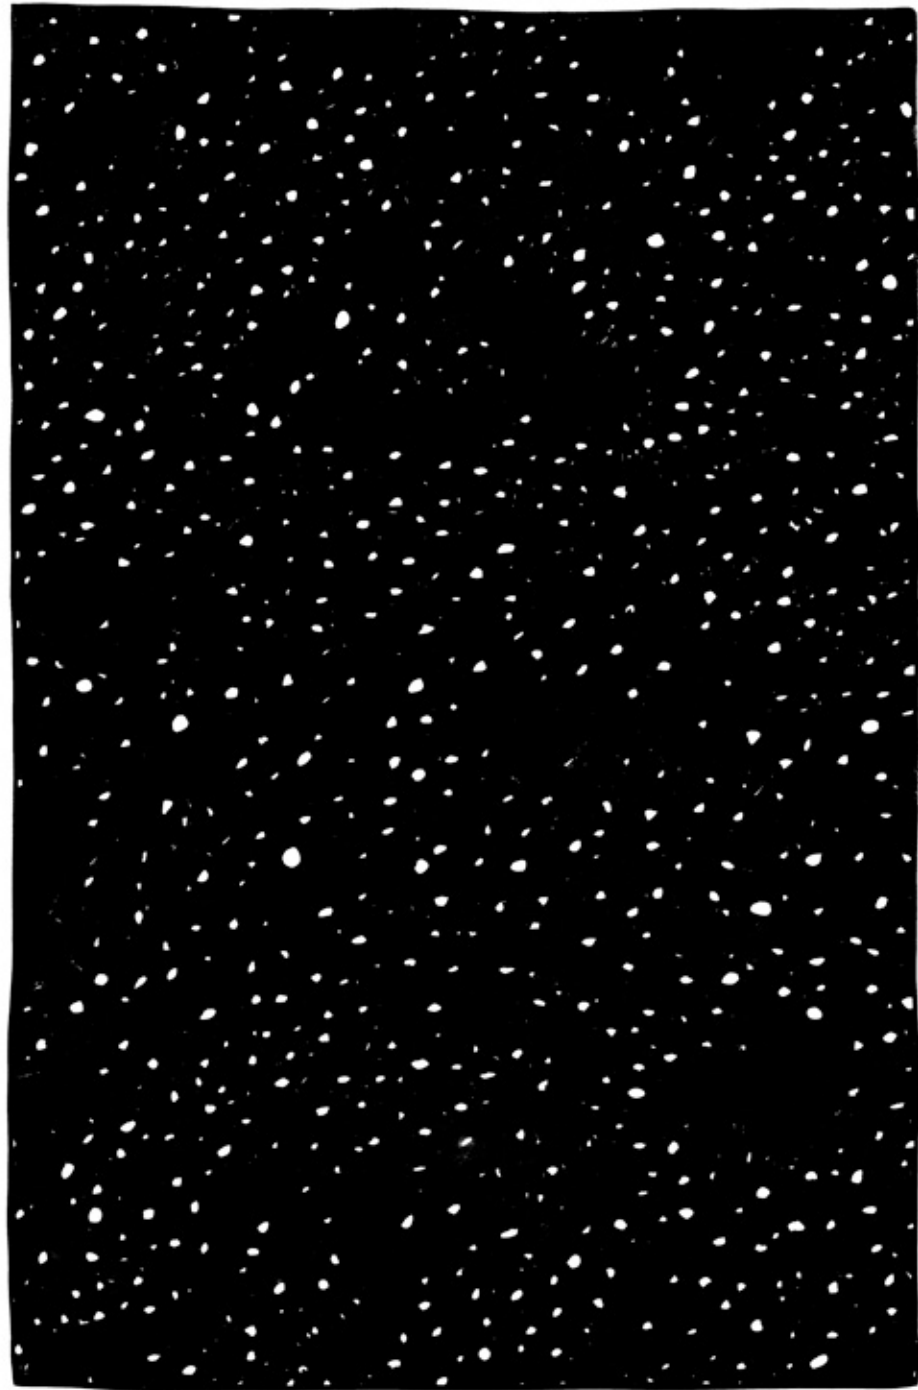

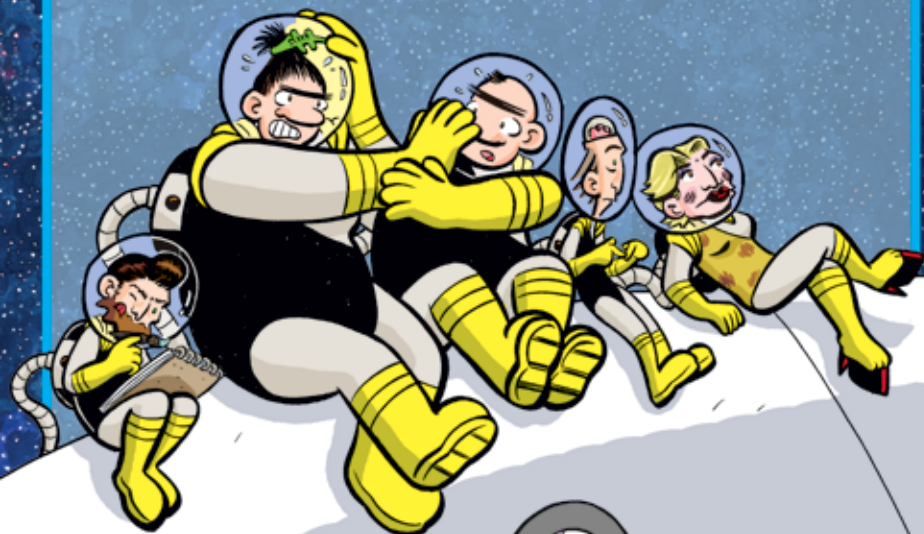

A super technologically advanced space station called "The Wheel" orbits the earth. Here in his laboratory, genius inventor Professor Albert Casimir has achieved time travel. Casimir has transported seven prehistoric humans to his station where they are educated and studied. They are...

## CAVEMEN IN SPACE!

Join Washington and his tribe as they attempt to adjust to jumping millions of years ahead in technology, art, literature, and fashion, not to mention facing a corporate alien empire with its eyes set on Earth!
