

UL's Toy Testing Services in India are now recognized by BIS

If you are sourcing or selling toys in India, it is important to know that the safety of toys is brought under mandatory Bureau of India Standards (BIS) certification with the extended date of effect of Jan. 1, 2021, as per the Toys (Quality Control) Order 2020, issued by the Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry, Government of India.

To help confirm the quality and safety of toys sold in the Indian market, UL's laboratory in Gurugram, India, added new testing capabilities for domestic and international toy companies.

We can now support the toy industry even more with compliance to the Quality Control Order of the DPIIT.

UL's laboratory in Gurugram has received BIS recognition to test toys for the following standards:

- Indian Standard (IS) 9873 (Part 1) 2019 for safety aspects related to mechanical and physical properties
- IS 9873 (Part 2) 2017 for flammability
- IS 9873 (Part 3) 2017 for migration of certain elements
- IS 9873 (Part 9) 2017 for certain phthalates esters
- IS 15644:2006 for safety of electrical toys
