

UL Solutions Create™ DIY e-Learning content creation

The challenge: help employees learn the expert insights of your company.

Safety. Science. Transformation.™

The Service

UL Solutions Create™ is a rapid e-Learning authoring tool for efficiently building and publishing e-Learning content. With UL Solutions Create, you can use or modify existing UL Solutions courses or develop your own content from scratch. UL Solutions Create's easy-to-use interface makes e-Learning course creation easy: simply add your own audio, documents, graphics, images, links, text or video.

- **Save time and money** – Easily produce content with UL Solutions Create. No special training is required, allowing subject matter experts to quickly develop and deliver courses to colleagues. Turn crucial company knowledge into learning material through UL Solutions Create, and update and maintain courses to keep pace with regulatory and industry requirements.
- **Leave PowerPoint behind** – With UL Solutions Create, you can produce engaging, professional courseware featuring high-quality audio, video, digital polls and quizzes – all with your own brand's look and message.
- **e-Learning when and where you need it** – UL Solutions Create's responsive design and mobile-ready experience provide your learners with 24/7 course access, anytime, using their preferred device, improving training completion rates.
- **UL Solutions brand integrity** – With UL Solutions Create, you get the UL Solutions assurance of expertise, insights and services necessary to solve critical business challenges.

UL Solutions Create™ at-a-glance

Development: Capture expert company knowledge and easily turn it into e-Learning courseware and improve your team's collaboration.

Customization: Develop new courses from scratch or edit courses from UL Solutions' extensive training library to build tailored content specific to your company's learning and branding requirements.

Hosting and Delivery: UL Solutions Create is cloud-based, using Amazon Web Services as a Content Delivery Network. Your courses can be delivered to learners worldwide, providing an optimal learning experience regardless of your team member's location.

Content Management: Courses you develop and license in UL Solutions Create are stored together for easy access and maintenance. You can also assign roles to control access to your content.
