

PureOHS™ Module: employee portal

The PureOHS™ employee portal module allows employees to conveniently access and print their personal medical chart and immunization history. With the ability to upload vaccination or exemption proof, clinical staff can quickly accept or reject the documentation, automatically updating the employee's medical chart. This streamlined process saves time and ensures accuracy, with notifications sent back to the employee for timely updates.

Functionality on the go

PureOHS™ is a web-based application that employees can use on mobile devices. Key benefits include:

- Empower employees to access and print their medical records or immunization history.
- Upload vaccination or exemption proof into a streamlined review process that allows clinical staff to accept or reject the documentation, automatically entering it into the medical chart if accepted.
- Notifications of the accepted or rejected documentation are automatically sent back to the employee.
- Employees can view medical compliance and surveillance programs' status.
- Save valuable time and clinic resources
