

## 关于 ANA NEO 推进与北海道合作的元宇宙事业

TOKYO, November 16, 2022 – ANA NEO, a metaverse travel service provider and platform, announced a collaborative effort with Hokkaido for the promotion of the island in the new travel metaverse ANA GranWhale.

As part of the ANA GranWhale experience and collaboration, certain areas of Hokkaido – from Wakkanai to Shiretoko and Nemuro – will be digitally constructed to showcase its nature, food, and culture. This effort will focus on promoting tourism in Hokkaido and will benefit the revitalization of various regions in the Prefecture by allowing first time visitors to experience online the benefits and beauty.

In addition, the collaboration will contribute to attracting real travelers to the entire Hokkaido region through a fusion of the real and virtual worlds by providing seasonal tourism information from each region. One of the benefits of digitally mapping this area will be to verify landscapes, cultures and experiences that can be studied by future generations.
