

New Year's resolution: "to learn more"

A new year calls for resolutions and we, in Academy, are committed to **ongoing learning** as Avaloq explores **new technology paradigms**. The future will be shaped by working with **open-source components and technologies**. We will continue to explore how these fit into the Avaloq ecosystem.

Above are some of the topics we'll be focusing on this year, so keep an eye out for more information in our newsletter.

Updated offering

We are updating and redesigning the course catalogue. Stay tuned for more information.

Need to be certified?

If you haven't taken the certification exam yet, don't forget that you can **sit the exam online!** We made this possible in October last year, so please take advantage of it.

ACCP with Major in Front Technologies and Front Upgrade

Due to the level of attendance at the **Front Technologies and Front Upgrade certifications**, they are now offered only on demand. This means that public courses will no longer appear on the website, but will be marked "**ON REQUEST**". You can request them by sending an email to academy@avalog.com.
