New introductory and accreditation courses

We started this year with a **commitment to provide a wider selection of technical courses**. Just last month, we announced our new delta and operations courses. And now **we've added new introductory and accreditation courses**. So no matter what your role is, there's an Academy course for you.

Community APIs lite

Provides an overview of the Avaloq Community API architecture and explains how to make read requests to retrieve data and write requests to create orders.

Delta - Containerized Trading Adapters (CTAP)
06 September 2023

The aim of this course is to show you how to set up adapters, particularly trading-related adapters like FixBridge, OmgeoBridge, EurexBridge and SIX Telekurs. It explains the purpose of these adapters and gives you the information required for customization in ACP as well as the configuration needed on the container platform.
