

That's a wrap for 2021!

Well, this year flew by so quickly but looking back, we made the most of it! In this newsletter, I'll **highlight some facts and figures** to wrap the year up.

You invested in **growing your skills** in the latest technology and products of Avaloq. The **average number of trainees per month was 14% more than last year.*** We hope that you've adapted well to learning from home, although we have to admit that we also miss the in-class sessions.

In January, our resolution was to **keep on learning** – which we achieved! The world of containerization was a little intimidating at first, but **we enjoyed the challenge** and appreciated the support of our subject matter experts, and **it was a pleasure to share the outcome with you.** ABR/S was also new to us but we're learning more about it and are now **looking forward to transforming the ACCP** using its customization framework.

I'd like to **thank the whole Academy team** for such **brilliant work** in providing you with the **best possible learning experience.** Hats off to them all and **what a great pleasure to work with such remarkable people!**

And to you, thanks for sharing this year with us. Have a lovely holiday ahead and recharge your batteries for new challenges next year!

Cheers,
Jam Wafy

Season's Greetings

from
Avaloq Academy

Numbers, numbers, numbers*

Participant count per month

132 average number of trainees per month

240 ACCP trainees

Best-attended courses

219 Delta2020H1 ACPR

86 Delta 2019H2 Migration API

77 Avaloq Web APIs

5 accreditation courses developed this year

- Accreditation: ABR/S Bank-Specific Customization
- Delta 2020H1: Avaloq Container Platform Reference (ACPR)
- Delta 2020H2: Community APIs (CAPI)
- Accreditation: Containerized Adapters
- Accreditation: Web Banking App Development

* Data based on Jan – Nov numbers because, well, we're still delivering courses this month!

Did you know?

Decommissioning Delta 2019H1

Yes, we're decommissioning Automated Personal Data Management (APDM), **but we're still going to offer it as an elective course**, so don't worry! We'll update some of the content and enhance it with interactive videos. This revised course is for people who haven't attended the Delta 2019H1 course or who want to update their knowledge.

New ACCP slot in Q1 2022

We understand that new colleagues will start in Q1, so we've added a new slot:

31 January 2021 – 23 February 2021
