

## RM Cockpit intro course in the works

RM Cockpit is a solution for **relationship managers (RMs)** and is part of the **Avaloq Wealth product line**. It is a client-meeting planner, preparation tool and assistant for RMs on the go. To highlight its features and functionality, we are working on an **introductory course** which will be available in our catalogue very soon.

Interested in **customization or configuration**? Don't worry, we'll work on that next. Stay tuned in our upcoming newsletters.

## Course dates for 2022 now available!

As the new year approaches, we've started publishing dates for 2022. You'll see introductory courses, deltas, electives and certification programmes.

## Did you know?

We've updated our Customization Principles course. We're using the **case-based method** to explore the different customization options in the Avaloq Banking Suite. Expect a very **hands-on course**, even **programming** if you're up for a challenge!

Highly recommended for anyone who'd like to **explore ACP customization**.

Get **20% off** if you sign up between **29 November and 3 December!**
