

DC Brushless Boom Barrier

Disclaimer: All images used are for illustrative purposes actual product may differ.

Model	AV-BB-06 (BR)
Technical characteristics	
Power supply	220-240V ~ 50/60 Hz
Motor	24V DC Brush less motor
Opening Time	2.5sec
Max. power	165 W
Max. torque	300 Nm
Material	Steel
Surface treatment	Pre-hot dip galvanized, 20µm thick + polyester powder coated
Encoder	Incremental, integrated in the motor
Deceleration type	Electronic + mechanical
Beam type	Rectangular and rounded
Max Boom Length	<6m
Ambient operating temperature	-20°C to +55°C
Protection class	IP55 (Electronic control unit) - IP44
Weight	40 Kg
Use frequency	Continuous use
Electronic equipment	E614
Certifications	CE, FCC, RoHS,
