

Normal Lane

Wide Lane

Technical Specification- AV-FB-02 (L)

Dimension (L*W*H) : 1200*280*980 mm

Transaction Rate : 30 persons/min

Housing Material : SS 304 (1.0 mm thick)

Temperature : -20°C ~ +70°C

Pass width : 550mm of standard lane and 900mm for wide lane

Working Humidity : 95%

Arm material : polyurethane

Operating Time : 0.2 sec

Input : 100-240V AC

Frequency : 50Hz

Working voltage : 24 V

Communication Interface : RS 485, dry contact

Features

- * Available in single & dual lane
- * MCBF: 5,000,000 Cycles
- * Applications: Suitable for Indoor application like Commercial buildings, stations, Hotels, Government Halls etc.
