

EXPLORE OUR WORLD

Summer Associates are exposed to all aspects of the Firm's practice by receiving substantive legal work, professional training, and social networking opportunities.

ASSIGNMENTS

- Our goal is to offer a realistic, professional experience and provide Summer Associates with client work of the same caliber as performed by the Firm's lawyers.
- Summer Associates are offered the unique opportunity to work directly with partners and receive informal, verbal feedback from assigning attorneys throughout the program.
- Formal reviews are conducted at the midway point and at the end of program to provide an evaluation of overall performance.

MENTORS & NETWORKING

- Summer Associates are paired with partner and associate mentors who coordinate networking.
- Mentors ensure that mentees receive the proper amount and variety of work, provide introductions, and are generally available to answer any questions.
- Summer Associates network with one another, learn more about the Firm, and gain practical knowledge to help them as they continue their legal careers.

REGIONAL TRAINING

- Summer Associates are provided with opportunities for professional development through comprehensive training sessions.
- Trainings include practice group introductions, writing workshops, time entry best practices, and many more sessions.

PRO BONO

- Our Pro Bono Practice focuses our pro bono efforts in areas of strategic focus, our IMPACT areas. Those areas of IMPACT are Children's Rights, Gender Justice, Justice Crossing Borders, LGBTQ Advocacy, and Rule of Law.
- Baker McKenzie partners with our corporate clients to engage them in joining our efforts to provide impactful legal services for vulnerable populations on a broad scale.
- Every year our Summer Associates collaborate on a signature pro bono project.
