

Easy Fiesta Breadsticks

Prep time: 5 min | Cook time: 11 min | Makes 4 breadsticks

Preheat oven to 375°.

On a small cookie sheet, unroll the crescent roll dough, keeping two wedges together to form a rectangle. You may need to flatten or reshape the sections after unrolling. Also make sure the two wedges are connected well, you don't want any gaps. You can overlap the two wedges a little and press them together along the seam if needed.

Sprinkle with the desired amount of taco seasoning. Next, add the shredded cheese down the center. I like a good amount of cheese but if you use too much they may break open when cooking.

Fold each side of the dough up and press the seam closed. Be sure to also press the top and bottom closed or the cheese will leak out. Sprinkle a bit more taco seasoning on top.

Bake at 375° for 11 min. or until the dough begins to brown.

INGREDIENTS

one package refrigerated
crescent rolls

taco seasoning

shredded monterey jack cheese
