

Access Game-Changing ERP Functionality for Industry 4.0 with Deloitte and Infor

Reduce operating costs, free up resources for innovation, and transform your enterprise with Deloitte using Infor's cloud-based ERP solution for manufacturers.

The Fourth Industrial Revolution has arrived. Is your enterprise ready? Many manufacturers are still burdened by highly customized, legacy on-premise ERP solutions. Extended over time with additional applications, the old systems often present a technical debt that makes it difficult to keep pace with business change. What's needed is a proven, rapid path to ERP transformation, and Deloitte and Infor can help. Together, we bring the capabilities and cloud-based ERP solution that can serve as a platform to drive enterprise growth, increase market share, and deliver hard value for the bottom line.

Transforming your enterprise to use a modern ERP solution, you need confidence that your System Integrator can minimize disruption to your customers and the business. We know what it takes in the manufacturing environment to transform processes, drive change management, and do so quickly. Our domain expertise and deep understanding of your industry and enterprise inform how we tie Infor's functionality and features to your specific business requirements.

One reason rapid speed to value is possible is because Infor's ERP solutions provide rich functionality tailored for almost every manufacturer. Infor LN offers industry-leading capabilities suited to manufacturers in the aerospace and defense, automotive, high tech and electronics, and industrial machinery industries. Infor M3 is designed for enterprises in the chemicals, distribution, equipment, fashion, and food and beverage industries. In addition, using accelerators and out-of-the-box configurations, we bring the

industry knowledge and experience in change management and process transformation to rapidly take your ERP transformation from concept to completion.

Today, manufacturers that are standing still will be left behind, and we can get you up to speed. With Infor's ERP solutions, you can access a breadth of new functionality, more granular data, and a platform for innovating with emerging technologies. Our experience with Infor, industry knowledge, global capacity, technical excellence, and focus on change management can help transform your enterprise to thrive in Industry 4.0.

Why Deloitte with Infor?

We bring the recipe for success, combining market-leading capabilities in manufacturing consulting, enterprise resource planning, Infor technology implementation, and deep industry knowledge to transform your enterprise.
