Surface Disinfection System: Four Students of Geethanjali College of Engineering and Technology Mr. Myson Sunny Raj (19R11A05N4), Mr. Abhishek Bhemisetty (18R11A0554), Mr. D. Sri Harshith Sai Varma (19R11A05F5), Mr. O Sai Varun (19R11A0329), MECH Dept., worked hard to on a coating that self-sanitizes with the power of the Sun and are impressing many with their idea.

As avid public bus users, Harshith Varma, Sunny Raj, Sai Varun and Abhishek Bhemisetty, students of Geethanjali College of Engineering and Technology, Hyderabad, were quite bummed with the flouting of COVID protocols on public transport. "Sanitizing was done only at the starting and final point and this made me very anxious," says Harshith. A photocatalytic coating that self-sanitizes surfaces at multiple points in the day and derives its power from the almighty Sun. This is the solution that the quartet came up with. It might sound like it's come straight out of a sci-fi movie but believe us when we say that the youngsters have poured over Google Scholar for days together to ascertain that this is a viable option. This idea made a huge splash at the Innovation Challenge conducted by J-HUB, JNTU (Jawaharlal Nehru Technological University), Hyderabad's initiative which is known for furthering the cause of innovation, in July 2021, and the team emerged as winners.
