# Enabling greater clinician productivity and effectiveness with Citrix, Goliath, and ChromeOS

How Citrix DaaS, Goliath, and ChromeOS help healthcare organizations achieve their business goals

ChromeOS offers improved secure experiences for clinicians, patients, and healthcare organizations

Secure
ChromeOS has had **zero reported ransomware** attacks, ever

Simple
IT can **reduce time to deploy by 63%** with ChromeOS1

Smart investment
Organizations can **lower costs 44%** over three years, or a **$3,901 three-year total savings** per ChromeOS device

1 Lower attack surface area with a cloud-first OS, and centralized access to data and apps with Citrix DaaS

2 Fine-grained policy and data protection controls for multi-layered security: ChromeOS + Citrix DaaS offers an extended set of granular policy controls to secure virtual apps, desktops and data access

3 Reduce TCO and maximize hardware investment with ChromeOS Flex + Citrix DaaS, a sustainable solution for extending the life of legacy devices while greatly enhancing security and control

4 Devices that are simple to use, easy to deploy and cost-efficient

Goliath Technologies + ChromeOS + Citrix

ChromeOS and Citrix have extended the partnership to add a new product from Goliath which helps ensure a successful pilot and production deployment of ChromeOS devices when using Citrix

Rich telemetry correlated across Citrix delivery infrastructure, ChromeOS device, and user behaviour

Purpose-built integrations for all major EHR systems

Reduced troubleshooting time with documentation for permanent remediation

Gets fingers pointed in the right direction
