Value Proposition

Why should customers choose OneTrust

- As the most well-known and largest consent solution in the market, OneTrust provides enterprise-grade speed and scale to capture, centralize, and activate consented data, enabling permission-based personalization and measurement.
- OneTrust is consistently first to market with support for both new regulatory requirements and industry consent frameworks, built directly into the platform.
- Pre-designed CMP templates facilitate simple configuration, allowing seamless deployment across websites, mobile apps, and CTV platforms.

Languages and countries supported: OneTrust is a worldwide company providing support in over 300 languages, with the ability to request additional languages as needed.

Platforms supported:

iOS

Roku
Roku

Plans & Pricing*

OneTrust's CMP pricing is highly competitive for companies of all sizes and use cases, determined based on visitor traffic, websites, and apps in scope. For more information, please reach out [here](#).

All prices include the implementation of Google Consent Mode

* When selecting a service tier and particularly when choosing a free tier, please be sure to check whether your business needs can be met within the conditions, limitations and caps applying to the tier in order to avoid disruption and discontinuity to measurement

Disclaimer: Subject to change at any time; CMPs should be contacted directly for the latest information on their services.

Consent Banner and Consent Mode implementation steps

Self serve available

Get started in 4 easy steps

- Create your Template and customize the text and styling
- Configure your consent experience with Geolocation Rules
- Toggle on support for Google Consent Mode and map to the consent categories of your choice
- Publish the CMP to your domain or application

We offer a beginner-friendly onboarding experience.
