

4000 DISC BASE (FLOOR MOUNT)

OVERALL DIMENSIONS

-DINING HEIGHT: 28"

-BAR HEIGHT: 40.5"

-AVAILABLE SPREADS:

10" DIAMETER BOTTOM COVER PLATE

DIMENSIONS ARE APPROXIMATE

SPECIFICATION:

- The base consists of a bottom 'X' piece that is made of 3/8" solid metal bar stock with a recessed hole in each end, to allow a bolt to go through into a mounting hole on the floor. The bottom structure is covered with a round 16 gauge furniture grade metal cover, 10" dia. x 1"H, finished to match the column.
- The column consists of a 3" diameter, 14 gauge metal tube with metal top mounting plate, and is bolted to the bottom structure. The finished height of the base is approximately 28 1/2" when fully assembled (standard dining height) or 40 1/2" (bar height). When required, 4" columns are also available.
- The base can be finished in any standard ISA powder coat or plated finish (prices vary)
- Available in custom heights upon request. Upcharges for customization apply.
- Customer/end user is responsible for hardware/attachment to specific floor needs.
