

DNA match of 27, bodies of 26 handed over

Rajkot, TRP in Rajkot. The bodies of those who died in the Gamezone fire tragedy are being handed over to their relatives after post-mortem and DNA matching. DNA from Gandhinagar FSL. The bodies are being handed over to the relatives after

the matching report. So far 27 DNA matches have been made. The bodies of 26 have been handed over to their families.

New Porsche 911: T-Hybrid for significantly enhanced performance

Ahmedabad, Porsche has fundamentally upgraded the iconic 911 sports car. The new 911 Carrera GT is the first street-legal 911 equipped with a super-lightweight performance hybrid. The 911 Carrera will also be available immediately upon the launch of the new model. The newly developed, innovative powertrain system, with 3.6 litres of displacement (911 Carrera GTs (provisional values): Fuel consumption* combined (WLTP) 11.0 – 10.5 l/100 km, CO2 emissions* combined (WLTP) 251 – 239 g/km, CO2 class G), delivers significantly improved driving performance. The 911 Carrera GTs Coupé accelerates from zero to 100 km/h in 3.0 seconds and reaches a top speed of 312 km/h. The 911 Carrera

will also be available immediately upon the launch of the new model. It is powered by a lightly modified 3.0-litre twin-turbo boxer engine (911 Carrera: Fuel consumption* combined (WLTP) 10.7 – 10.1 l/100 km, CO2 emissions* combined (WLTP) 244 – 230 g/km, CO2 class G) that is more powerful than its predecessor's. The new 911 also features a revamped design, better aerodynamics, a fresh interior, upgraded standard equipment and expanded connectivity. With the relaunch of its iconic model, Porsche has modernised four of its six model lines in just a few months: Panamera, Taycan, Macan and 911. "Our product portfolio is younger than ever and highly attractive," says CEO Oliver Blume. (19-10)

Over 15 private schools protested against sealing of governing bodies

Surat, After the Gozari incident of fire in the game zone in Rajkot, an investigation has been carried out regarding fire safety and sealing action has been taken. Then there was anger among the school administrators who sealed more than 15 private schools in Kapodra and Pune areas. The allegation was met with opposition by the school management. Along with this, it has been alleged that the schools have been sealed despite having a fire NOC. After the incident in Rajkot, the state government has started an investigation regarding fire safety in schools. While all properties and premises are sealed if they do not have this facility, schools are not exempted from this. A meeting was held by Surat Municipal Corporation and Collector yesterday. In which an investigation has been started regarding fire safety in schools as well. The district education officer protested by the governing body has also ordered to submit the inspection report on fire

equipment and electrical appliances in all the schools immediately. Then all the schools which do not have fire NOC are being sealed, this action is taking place for the future of the children. At that time, the private school management is protesting in this matter. Allegation of sealing despite fire NOC in this matter, the district education officer mentioned in his notice that there are many schools in Limbayat, Varachha and Pune areas of Surat which have been started inside small houses. There is no fire safety of any kind and no entry exit. If an accident happens, innocent people can be killed! Today, more than 15 private schools in Pune and Kapodra areas have been sealed. It has been alleged that even private schools have been sealed despite having a fire NOC.

Jagdish Chavda (Gujarat State School Management Board) said that private schools in Pune area have been sealed by Surat Municipal Corporation without

giving any written notice. Which is completely illegal. All our schools are regulated by the municipal by-laws. However, this operation has been done today. He further said that the officials also seal the schools which have NOC to show their performance and compromise the future of the children. The municipality will be solely responsible for educating the children. The governing body of the private schools announced that all schools will remain closed indefinitely until the municipal corporation opens the seal.

The entire responsibility of teaching the children in the session which is going to start on the next 9th will be the responsibility of the Metropolitan Municipality. The fire department of the Surat Municipal Corporation has shown the reason for the COR regarding the sealing operation.

As the impact fee law is in place by the government, our petitions are pending in the matter of impact fee, so COR cannot be considered illegal.

Office Productivity Takes a Hit in the Afternoon, Particularly on Fridays

A recent interdisciplinary study at the Texas A&M School of Public Health used a novel method of data collection to show that employees really are less active and more prone to mistakes on afternoons and Fridays, with Friday afternoon representing the lowest point of worker productivity. The study, published in the journal PLOS ONE, was authored by Drs. Taehyun Roh and Nishat Tasnim Hasan from the Department of Epidemiology and Biostatistics, along with Drs. Chukwuemeka Esomonu, Joseph Hendricks, and Mark Benden from the Department of Environmental and Occupational Health, and graduate student Anisha Aggarwal from the Department of Health Behavior. The researchers looked at the computer usage metrics of 789 in-office employees at a large energy company in Texas over a two-year period — January 1, 2017, to December 31, 2018. "Most studies of worker productivity use employee self-reports, supervisory evaluations, or wearable technology, but these can be subjective and invasive," said Benden, professor and head of

the Department of Environmental and Occupational Health. "Instead, we used computer usage metrics — things like typing speed, typing errors and mouse activity — to get objective, noninvasive data on computer work patterns." The team then compared computer usage patterns across different days of the week and times of the day to see what kinds of patterns emerged. "We found that computer use increased during the week, then dropped significantly on Fridays," said Roh, assistant professor in the Department of Epidemiology and Biostatistics. "People typed more words and had more mouse movement, mouse

clicks and scrolls every day from Monday through Thursday, then less of this activity on Friday." In addition, Roh said, computer use decreased every afternoon, and especially on Friday afternoons. "Employees were less active in the afternoons and made more typos in the afternoons—especially on Fridays," he said. "This aligns with similar findings that the number of tasks workers complete increases steadily from Monday through Wednesday, then decreases on Thursday and Friday." What is the takeaway for employers? To start, flexible work arrangements, such as hybrid work or a four-day work week, may lead to happier and more productive employees. As of May 2023, about 60 percent of full-time, paid workers in the United States worked entirely on-site. The remainder either worked remotely or had a hybrid arrangement that involved a combination of remote and on-site work. In addition, many employees have a compressed workweek in which they work longer hours, but on fewer days. "Other studies have found that those who work from home or work fewer days have less stress from commuting, workplace politics and other factors, and thus have more job satisfaction," Benden said. "These arrangements give workers more time with their families and thus reduce work-family conflicts, and also give them more time for exercise and leisure activities, which have been shown to improve both physical and mental health." The researchers looked at the computer usage metrics of 789 in-office employees at a large energy company in Texas over a two-year period — January 1, 2017, to December 31, 2018. "Most studies of worker productivity use employee self-reports, supervisory evaluations, or wearable technology, but these can be subjective and invasive," said Benden, professor and head of the Department of Environmental and Occupational Health.

"Instead, we used computer usage metrics — things like typing speed, typing errors and mouse activity — to get objective, noninvasive data on computer work patterns."

Lava brings the power packed 5G experience for youth with Yuva 5G

Ahmedabad, Lava International Ltd., the leading Indian Smartphone brand, announces the launch of power packed Yuva 5G, engineered to offer exceptional speed and performance. Introduced in two memory variants, Yuva 5G is a full day companion with enhanced battery backup, lightning speed and quality camera features. It has been our constant endeavour to bring value for our customers through innovation, pricing, quality products and services. Yuva 5G is designed for the youth, suited to their consumption patterns and preferences. (1-7)

Aganbhatti, 3 cities of Gujarat Ahmedabad, Rajkot, Disa recorded 44 degree temperature today, 7 days of scorching heat

Ahmedabad Following the forecast of the Meteorological Department, the maximum temperature has risen across the state from today. The Meteorological Department had earlier predicted that the temperature would rise as the clouds cleared from across the state, following which a heat wave alert has been issued in the state for the next 5 days today. Ramashray Yadav, a scientist of the Meteorological Department, said that the heat will remain unchanged in Gujarat for 7 days and there is a possibility of one-two degree increase. Today, Ahmedabad, Rajkot, Disa recorded a temperature of 44 degrees, while Bhavnagar, Surendranagar, Porbandar, Junagadh and Valsad have declared yellow alert for 5 days.

Announcing orange alert in Ahmedabad for 48 hours, he further said that a total of three districts in the state recorded maximum temperature of more than 44 degree Celsius yesterday, meaning the scorching heat in three districts forced people to cry Trahi Maam. Surendranagar district recorded the highest temperature of 44.8 degrees Celsius yesterday in the state. Apart from this, Ahmedabad and Gandhinagar recorded a temperature of 44.2 degrees Celsius. However, Orange Alert was declared in Ahmedabad for the next 48 hours by the Meteorological Department. Temperature of Ahmedabad recorded 44.2 degree Celsius. The maximum temperature of this year was recorded in Ahmedabad city at 44.2 degree Celsius. Due to the sudden increase in the maximum temperature, the urban residents cried out. Today, the city dwellers had to bask in the heat, as the sky will experience ember rain from 3 pm to 7 pm. The temperature may increase by 1-2 degrees. Heatwave alert

has been issued in Valsad, Bhavnagar, Surendranagar, Porbandar, Junagadh and Kutch for the next 5 days. The maximum temperature of Ahmedabad and Gandhinagar is 44.2 degrees Celsius. Orange alert has been announced in Ahmedabad for the next 48 hours. Surendranagar in Ahmedabad recorded a temperature of 44.2 degrees Celsius. However, Orange Alert was declared in Ahmedabad for the next 48 hours by the Meteorological Department.

Aparshakti Khurana and Savi Kahlon pour their hearts into 'Zaroor'

Ahmedabad, Multi-talented Aparshakti Khurana and emerging artist Savi Kahlon, join forces to release their latest love ballad, 'Zaroor'. Set to tug at heartstrings and wrapped in layers of emotions, 'Zaroor' explores the intricate journey of letting go and embracing new beginnings. "Zaroor", the soulful ballad, penned and composed by Savi Kahlon and backed by the soothing vocals of Aparshakti Khurana, beautifully embraces the bittersweet symphony of memories, giving the courage to find yourself again. Captivating audiences with its

raw and compassionate narrative, this track explores the complexities of human emotion with finesse and authenticity. Reflecting on the collaboration, singer-actor, Aparshakti Khurana shares, "Working on Zaroor has been a different and a fulfilling experience. Savi Paaji's lyrics and composition hit home, allowing me to explore new dimensions as an artist. From the very first moment I heard the composition, I felt an instant connection. With Zaroor I am sure you'll feel every note of this heartfelt harmony that we have created." (1-7)

TEMBO Global Industries Unveils Impressive Financial Performance

Ahmedabad, TEMBO Global Industries, a formidable force in the industrial sector renowned for its expertise in manufacturing and fabricating metal products essential for Pipe Support Systems, Fasteners, Anchors, HVAC, Anti-Vibration Systems, and various industrial, commercial, utility, and OEM installations, is pleased to unveil its outstanding financial performance for the initial quarter of 2024. Additionally, the company actively participates in the trading of metal products associated with its core manufacturing operations and textiles. TEMBO operates as an export-oriented entity, holding prestigious Star Export House certification. Furthermore, the company has procured a land parcel of 3.32 acres in Vasai for the expansion of its manufacturing facility, aiming to increase capacity by 4-5 times compared to the existing capacity. The expansion project is currently underway and is scheduled to

be commissioned during the current financial year. In 2023, the company ventured into the EPC contract business and secured orders from prominent entities such as Kalpataru, L&T, Tata projects, RDC-Maldives, etc., amounting to Rs 300.00 Cr. Our products are certified and approved by Underwriter's Laboratory Inc. (USA) and FM Approval (USA) for Fire Sprinkler System Installations. All of our products are manufactured to meet and exceed industry standards set for their design and manufacture. Tembo is a fabrication and installation specialist in ductile pipes, HDB pipes and fittings, and MS plates. Our experienced staffs provide services to meet all the requirements of our customers — they can help with the design, fabrication, and installation of the products they need. We understand that each requirement is different and strive to deliver customized solutions based on our customers' specifications. (19-8)
