Highway Builders Want Infra Loans Provision Pared to 2%

"RAISING CONCERNS Contractors' body writes to NHAI, RBI and finance ministry, says 5% proposal by the central bank will hurt project viability

Yogima.Sharma@timesgroup.com

New Delhi: Highway construction contractors have suggested that the Eprovision that lenders must make aga-Einst financing their projects be fixed at ₹2% instead of the Reserve Bank of India's proposal of 5%, which they said wo-—uld hurt project viability.

Currently, lenders need to set aside ₹0.4% as provision against loans proviided to highway builders. The banking regulator made the proposal to sharply increase this in its recent draft guidelines on infrastructure financing. The contractors have also proposed Ethat the government consider 90% of and availability for financial closure as against the proposed 50%, and increase the moratorium for repayment to a year from the RBI suggested

"By increasing the provisioning from 0.4% to 5%, project viability will =be the biggest impediment as interest =cost will increase which is turn will ≡increase the cost of the project both for the investor as well as the govern-"ment," the National Highways Builders Federation (NHBF) said in its submission to the National Highways -Authority of India, the finance ministry and the Reserve Bank of India. According to the NHBF, this increased provisioning will slow down the tes," it said.

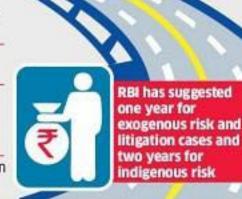

Funding Woes

▶No provision for maintaining funds with the lender during the operational phase

▶RBI had proposed reducing it to 2.5% and 1% subsequently

and hurt economic availability for financial closure of infrastructure projects, the NHBF said land availability of not less than 90% should be considered sufficient. "Land availability is the single largest risk factor which creates the delays or sometimes even leads to termi-

> Calling for an increase in the moratorium period to a year, the NHBF argued that moratorium period is often availed of from lenders to sustain initial requirements of cash flow for stabilising operations.

nation of projects," it said.

"Restriction on this will create pressure on the cash flow of the company and may result in stress on the project, particularly for build-operate-

NHAI Hikes Toll Charge Across Highways by 5%

12 13 14 15 16

New Delhi: Motorists using expressways will have to shell out more from Monday as the National Highways Authority of India (NHAI) has decided to hike tolls across the country by an average of

The annual revision of highway user fee, which is expected to be in the range of average 5 per cent, was earlier to come into effect on April 1. But the hike was deferred due to the Lok Sabha elections.

"The new user fee will come into effect from 3.6.2024," a senior NHAI official said on Sunday.

The change in toll fee is part of an annual exercise to revise the rates that are linked to the changes in the wholesale price index (CPI)-based inflation.

There are around 855 user fee plazas on the national highway network on which user fee is levied as per the National Highways Fee (Determination of Rates and Collection) Rules, 2008.

Out of these, around 675 are public-funded fee plazas and 180 are operated by concessionaires.

No Tax Recovery within 3 Months of Notice: CBIC

Asks field formations to strike a balance between interest of revenue and ease of doing business

Our Bureau

New Delhi: The Central Board of Indirect Taxes and Customs (CBIC) has asked its field formations to not initiate idcase, the CBIC said in the letter. recovery within three months of serving a tax notice, asking them to strike apprehension of risk to revenue shovenue and ease of doing business.

Only in cases where there is risk of tent possible. "Such reasons could inclosure of business or an impending clude high risk to revenue involved in Einsolvency, the field formations can waiting till the completion of the initiate recovery before the mandated three-month period due to apprehenperiod after getting a nod from the ju-sion that the concerned taxable person Erisdictional principal commissioner, may close the business operations in Ethe CBIC said in a letter dated May 31 to near future, or due to possibility of de-=all the zonal heads.

ET has seen a copy of the letter.

It said that reasons to believe for the abalance between the interest of there- uld be based on credible evidence, which may be kept on record to the exfault by the taxable person due to his declining financial conditions or im-"It is implicit that such directions for pending insolvency, or likely initiation

Bankruptcy Act, etc," the board said. The apex body of indirect taxes added that while issuing any such directions, the proper officer must duly consider

the financial health, status of business operations, infrastructure and credibility of the taxable person.

The GST law mandates that an officer can recover any amount payable to the government under any of the provisions of the CGST Act. Section 78 of the Act specifies the timeline for initiating such recovery proceedings as three months from the day of serving notice.

This period can be shorter in some exceptional cases where the assessee had to pay the amount before three months. The letter was written after the board noted that many tax officers were abusing the exceptional case clause, initiating recovery proceedings before the expiry of the specified threemonth period, even in routine cases, forcing the companies to move courts to seek stay on the recovery process.

What Drove Growth in FY24

The Indian economy grew 8.2% in FY24, more than a percentage point higher than the previous year's growth of 7%, according to data released last week. The pace of expansion in some sectors was at multi-year highs, barring FY22 when the economy recovered from Covid-related contraction. ET takes a look at the factors that pushed growth:

Manufacturing growth at 9.9% was the highest since FY17, barring FY22

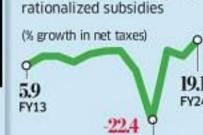

Mining and quarrying also grew at the fastest pace in seven years

Net tax contributions also rose

Net taxes grew at the fastest pace since FY12 Share in GDP at 8.7%.

BUOYED BY ROBUST GDP GROWTH...

'New Govt Set to Press for Next-gen Reforms'

Suryash.Kumar @timesgroup.com

New Delhi: The new government has the launchpad to undertake next-generation reforms on account of a robust GDP growth, prospects of a good monsoon, healthy foreign exchange reserves and a stable rupee, Assocham president Sanjay Nayar said.

India will continue to be the world's fastest-growing economy and the Indian-corporate world has its hopes up as it expects the next government to continue on the reform path and steer the Indian economy towards high growth.

"India Inc remains very bullish about India retaining the coveted status of being the fastest growing amongst the ma-

jor economies of the world," said Nayar. He also "expects the new government to push accelerator on reforms encompassing several areas including the startup ecosystem, fintechs with soft touch regulations and a boost to agriculture in terms of new technology and modern practices". Private investment will be one of the cornerstones upon which India can balance

between cyclical consumption driven growth and inflation. "Private investment growth can = drive the supply side and needs to be closely monitored," Nayar added. Further, the extreme weather stemming from climate change has a detrimental effect on citizens, including the labour force and farmers, and needs to be addressed. "We would like = 9 the new government to attend to the issue of climate change with renewed vigour; setting specific E targets with regards to ecology afforestation, renewable energy though some of the targets \(\xi \) are in place," Nayar said. He said adequate credit and modern technology for MSMEs can E spur job creation, while Al and other emerging technologies need to be moulded in line with = India's needs in sectors such as healthcare, education.
