

"BJP will cross 370 seats...": JP Nadda thanks Election Commission after voting concludes for last leg of LS polls

NEW DELHI [INDIA] : As the final phase of the Lok Sabha elections concluded today, marking the end of the world's largest polling exercise that began on April 19, Bharatiya Janata Party National President JP Nadda on Saturday thanked the Election Commission of India and claimed that BJP party will cross 370 seats.

The voting for the final phase of the Lok Sabha elections which began on April 19, came to an end on Saturday. "The final phase of the election has been completed. I would like to thank the ECI for successfully conducting the elections with proper arrangements. It is a matter to notice for the world how the ECI conducts elections in

the biggest democratic country. I also thank the lakhs of employees and security personnel of the Election Commission. I also thank our voters and the first-time voters who came out to vote during the scorching heat in all the phases," Nadda said in a self-made video. He further said that under the vision and guidance of Prime Minister Narendra Modi, the party fought the elections. "I would like to thank the workers of the party too for campaigning for the elections

under the vision of PM Modi. I want to thank PM Modi who worked so hard during the elections. PM Modi held over 206 election rallies, 23 roadshows, and almost 82 interviews he gave. He left no stones to reach the people of the country through these mediums. He raised the issues which people were not aware of. I want to again thank PM Modi," he added. BJP chief also thanked Union Home Minister Amit Shah who held more than 180 public meetings and roadshows. "I want to thank Rajnath Singh ji, and Nitin Gadkari ji who worked extensively during the elections. I thank PM Modi on behalf of all the party workers. I am thankful to all the leaders of NDA

allies who worked hard and tried to reach out to the people during the Lok Sabha elections. I believe that people have voted for 'Viksit Bharat', 'Saksham Bharat', 'Samarthavaan Bharat', and 'Aatmanirbhar Bharat.' The voters must have neglected the people who indulge in appeasement politics, dynastic politics, and corruption. I am confident that Bharatiya Janata Party will get more than 370 seats and NDA will cross 400 seats," he said. The voting for the marathon seven-phase polling process for the Lok Sabha elections, which began on April 19, came to an end Saturday. The seventh and the final phase of polling for Lok Sabha elections across seven

states and the Union territory of Chandigarh saw a voter turnout of 58.3 per cent till 5 pm, the Election Commission (EC) said. NCDC data confirms 56 heat-stroke deaths in India: Sources

NEW DELHI [INDIA] : With scorching heatwaves gripping several parts of the country, at least 56 deaths from heatstroke have been confirmed in multiple states by the National Centre for Disease Control (NCDC), sources said on Saturday. According to sources, many states are underreporting deaths due to heatstroke. The data is based on reports submitted by states to the NCDC. "Full reports on heatstroke deaths are awaited from states like UP and Bihar, where, according to state data, 166 deaths are reported in UP, while 22 people have died of heatstroke in a hospital in Bihar," sources said.

In May alone, 46 people have died due to heatstroke. However, suspected heatstroke cases in May were 1,918. According to data shared by states, over 7 lakh people were admitted to emergency departments of primary care hospitals. Of these cumulative sus-

pected heatstroke cases, there have been 24,849 since March 1. According to data released by the Union Health Ministry, the maximum deaths have occurred in Madhya Pradesh (14), followed by 11 deaths in Maharashtra. Although the reported numbers are expected to be higher. Dr Neeraj Nischal, additional professor in the Department of Medicine at AIIMS New Delhi, said, "If we don't take care of heat-related illness, there is a spectrum of manifestations - sunburn, cramps, muscle pain, dizziness, and tiredness. These are the early warning signs." "If you don't acknowledge these symptoms, the blood pressure will start falling, and when it becomes non-recordable, that is when we say that the patient has landed up in shock," he said. "It is very important to identify the early signs and symptoms of heat-related problems. The earliest signs will be increased sweating, tiredness, dizziness, the possibility of fainting because of this type of change in blood pressure, and other things. These are the warning signs.

Those with co-morbidities are at risk and those who have outdoor activities are at risk. If they don't hydrate themselves properly, they may have all these problems," he explained.

He also said that people should refrain from drinking cold drinks and other types of aerated beverages since they are unhealthy, especially during heatwaves. "Cold drinks are not healthy drinks, especially during heatwaves. When you take a cold drink, your thirst will go away for a moment, but it's such a sugary drink that it will further dehydrate your body. This is not a healthy drink, and one should avoid cold drinks as a source of hydration in this heatwave," he said. "The best type of drink is water. Apart from that, one can have shikanji, lassi, and buttermilk - any type of healthy drink that will hydrate you. If you are sweating too much, ORS and other such stuff can also help," he added.
