ACCELERATE THE ENTERPRISE JOURNEY WITH INFOSYS AND IFS

The Infosys-IFS relationship is a global alliance that encompasses joint custom solutions, dedicated tools for product development and readymade solutions for different businesses. At Infosys, we

have a dedicated practice for IFS ERP applications that has been providing business transformation services, upgrades and support for global clients over the past 12 years. Through our IFS Centre of

Excellence, part of Infosys Cobalt, we have created several tools, business solutions, knowledge artefacts, reusable assets and frameworks to deliver our IFS offerings.
Why IFS?

IFS Cloud is a single platform that delivers class-leading solutions across Service Management, Enterprise Resource Planning and Enterprise Asset Management.
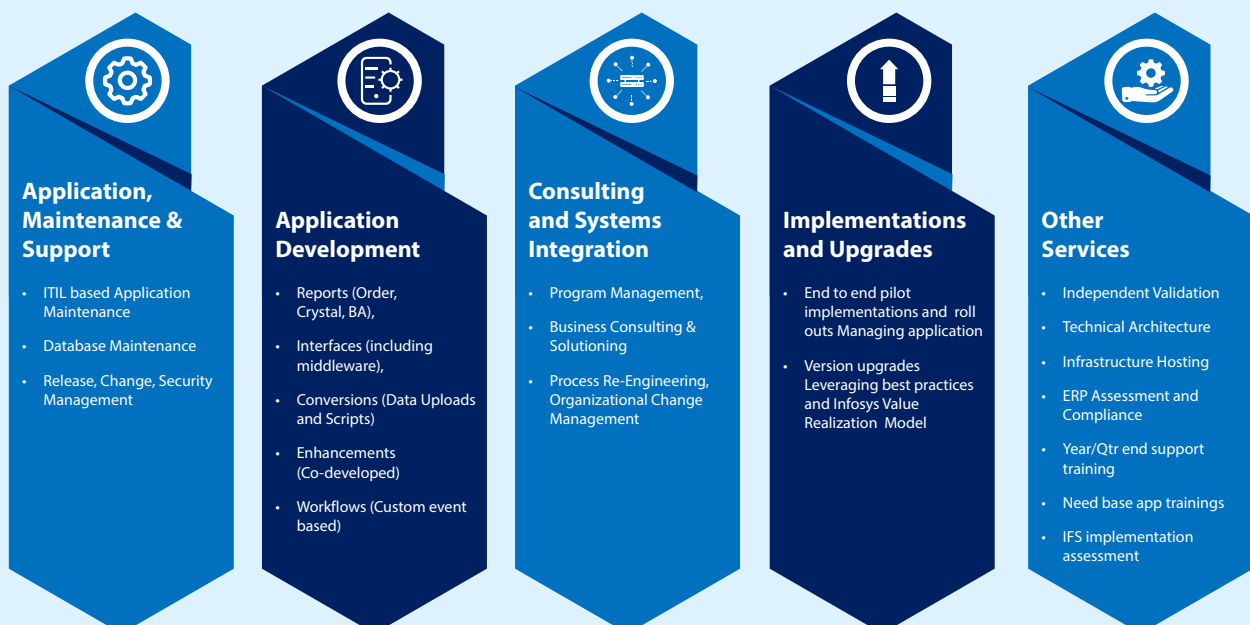

Built to meet the specific needs of businesses and the markets they serve, IFS Cloud combines deep industry and functional strength with intelligent and autonomous capabilities that can be put to work from day one.

IFS Cloud is the solution that pulls core business activities together into something greater: moments of service that delight customers.

IFS is an enticing option for enterprises

Unique industry depth → Affordable enterprise level software → All business required modules included → Easy functionality to understand → Capabilities to fulfill all reporting requirements → Easy to customize work environment
