Infosys Polycloud Platform empowers global enterprises to procure, build and manage vendor-agnostic solutions across hybrid cloud providers. Our platform supports enterprises of varying size and scale with an intelligent multi-cloud management framework that manages the hybrid IT ecosystem. It capitalizes on automation, AI, and other advanced digital technologies.

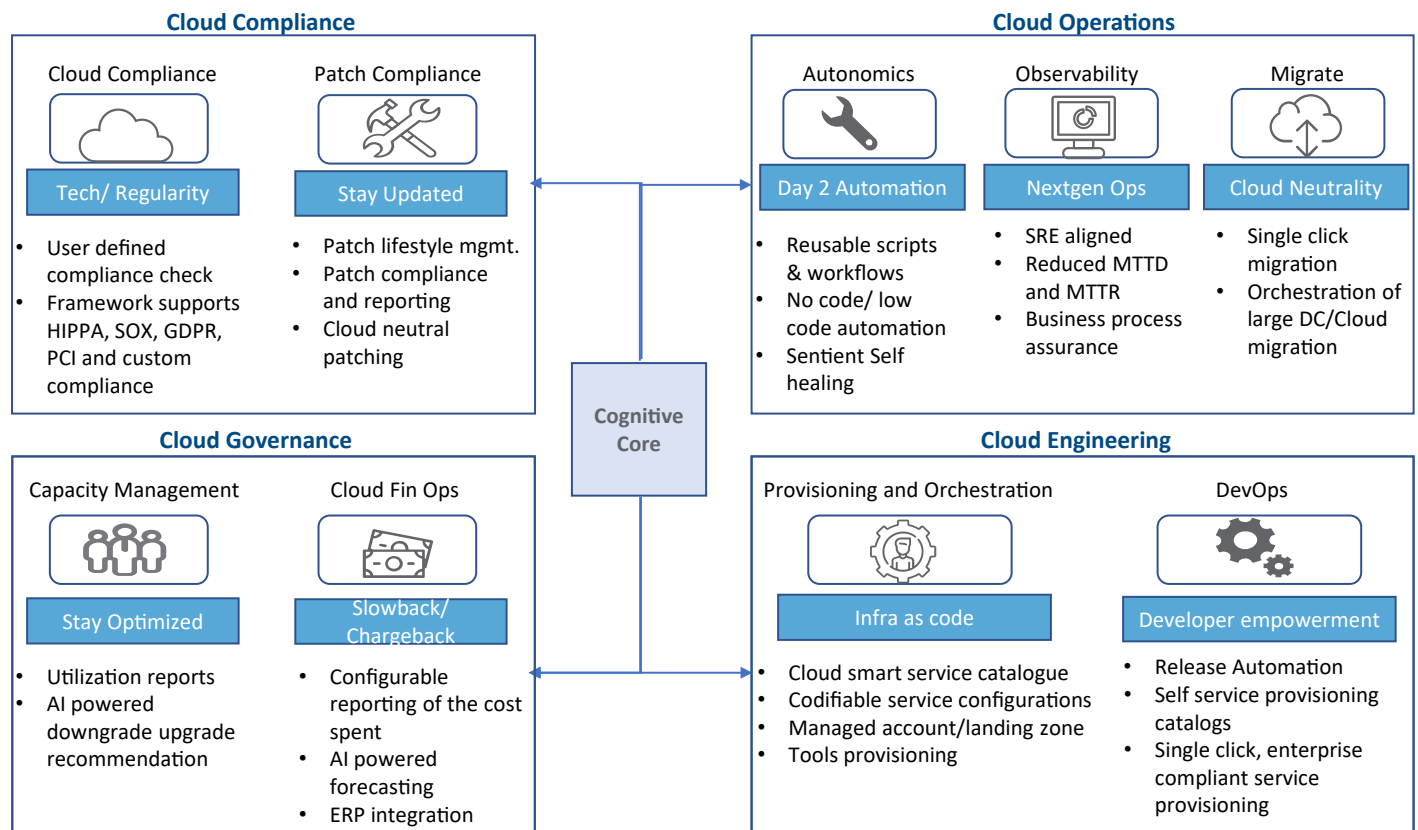

Infosys Polycloud Platform provides a backplane that abstracts

public and private clouds, enabling a common interface to select, provision, move and manage platform and application services workloads across the enterprise. Our global clients leverage the Polycloud Platform to achieve flexibility and, enhance visibility into IT operations. Infosys Polycloud Platform is part of [Infosys Cobalt](#), a set of services, solutions, and platforms to accelerate the cloud journey of enterprises.

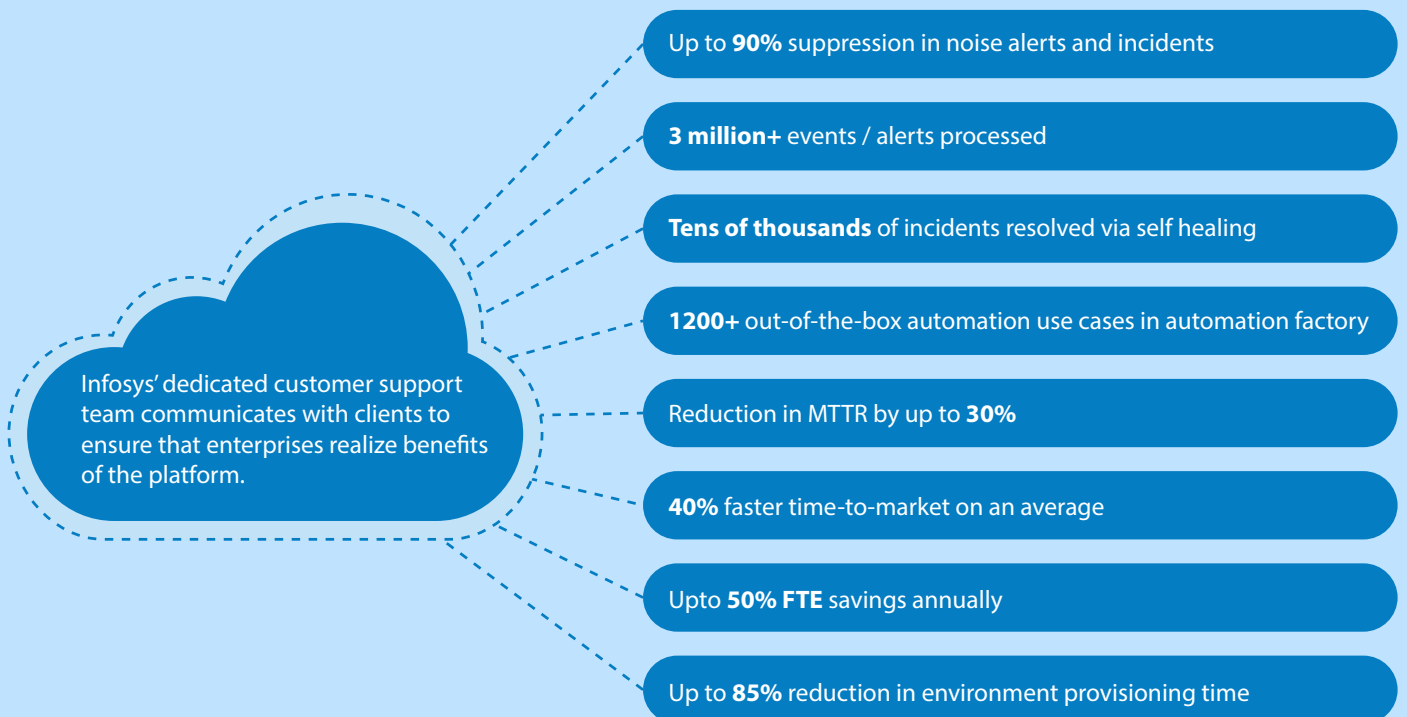

## Highlights

- A comprehensive suite of offerings that offers a value-added solution for enterprises
- A repository of adaptors and plug-ins to connect with multiple enterprise toolsets and better manage IT operations
- Foundation of industry-grade open-source technologies to keep pace with shifts in technology
- Cost-effective pricing
- Ready-to-use pre-built solutions to accelerate and simplify transformation
- Ability to deploy and implement at nearly twice the pace of existing solutions

## Infosys Polycloud Cognitive Core Platform Overview

## Features

**Infosys Cobalt** is a set of services, solutions and platforms for enterprises to accelerate their cloud journey. It offers over 35,000 cloud assets, over 300 industry cloud solution blueprints and a thriving community of cloud business and technology practitioners to drive increased business value. With Infosys Cobalt, regulatory and security compliance, along with technical and financial governance comes baked into every solution delivered.
