

Strengthening Cybersecurity program capabilities

Cyber threats on the rise

01

Cyber-crime to cost the world \$10.5 trillion annually by 2025

02

Cyber-attacks occur 2,244 times per day

03

Ransomware attacks on an average cost businesses \$133,000

04

The global cybersecurity market size is forecasted to grow to \$248.26Bn by 2023

Challenges faced by organizations

Unstructured assessment of current landscape (technology, people, process)

Rapid change in technology landscape including the vendor landscape, compounded by privacy and regulation pains

Lack of effective communication strategy and security-first culture

Inability to optimize costs through consolidation of vendors/service providers and shortening shelf life of vendor products

Improper management of cybersecurity initiatives

Cybersecurity Maturity Assessment

Cybersecurity Policy Development

Cybersecurity Awareness and Training
