Kahoot!

Professional development

What is Kahoot!

Kahoot! is a game-based learning platform that makes it easy to create, share and play fun learning games or trivia quizzes in minutes.

Our mission is to make learning awesome

Our vision is to build the **leading learning community in the world** by connecting teachers, students, parents and organizations with premium content.

The importance of social play

Brings the learner from the back of the classroom, to the front - for all the **right reasons**!

All learners can feel success!

Loud learning = happy learning!

Our history

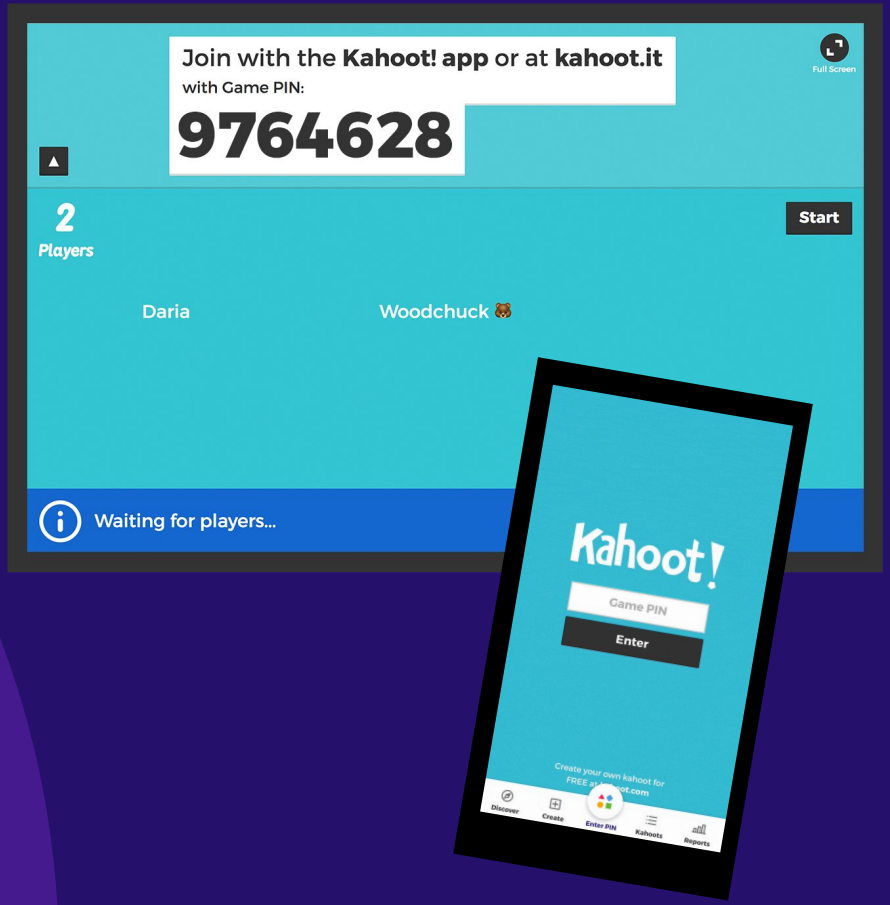
Kahoot! was launched in private beta 2013 at SXSWedu in Austin, Texas.

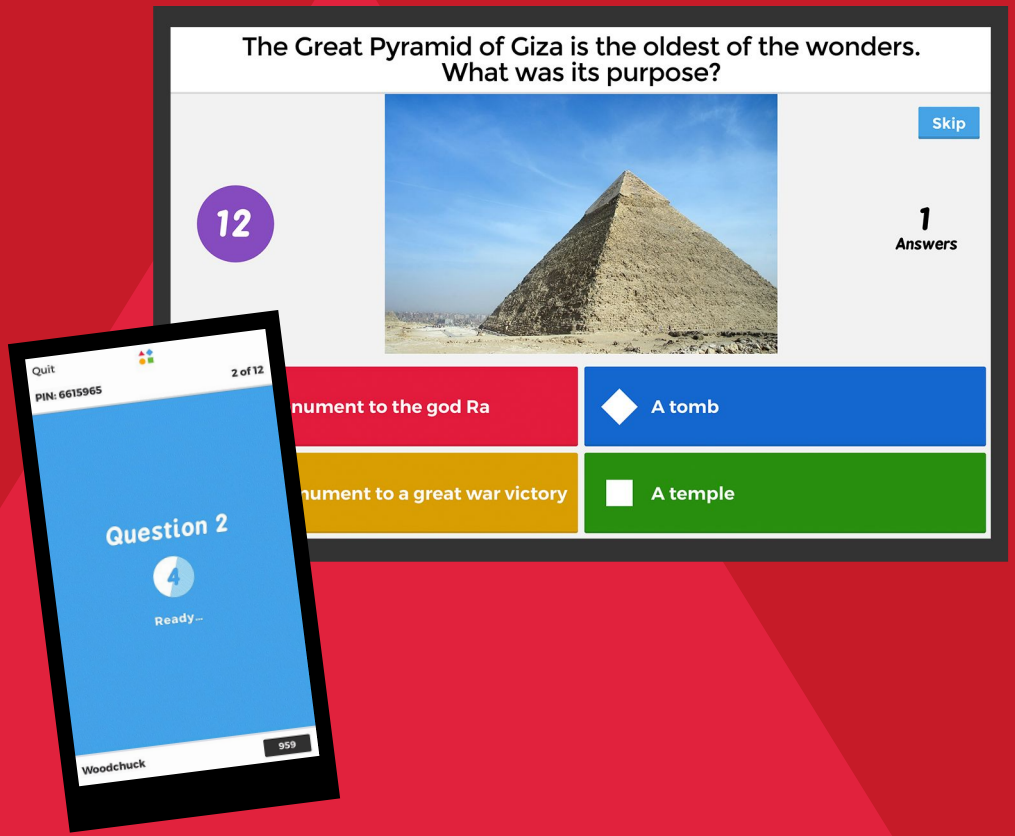
Its technology is based on research by Kahoot! co-founder Morten Versvik for his Master's degree at the Norwegian University of Technology and Science.

Hosting a live game

The host launches a kahoot on a big screen.

Players join using the app on their devices in the app or at kahoot.it via a browser.





Playing

Players refer to the screen for questions and answers, and use their devices as game controllers to answer, gaining points.

Looking up creates a “campfire moment” and encourages **social play!**

Engages the heart, hand, and mind

1

Search among millions of public games to play, or create your own

2

Explore Kahoot! Studio collections for ready-to-play, curriculum-aligned games

3

Works with any device with an internet connection, zero setup time

4

Foster discussion and social learning

5

Engage students even with complex topics

6

Kahoot! will always be **FREE** for teachers and students

Kahoot! Studio

We have hundreds of **curriculum-aligned, ready-to-play games** in our Kahoot! Studio collections.

They **cover core subjects** such as math, ELA, science, history & social studies, and computer science.

They fully align to curriculum standards such as **Common Core, TEKS, NGSS,** and **IB.**

Subtraction Multi-Digit Numbers Word Problems
Created 16 days ago • **2.3k plays**

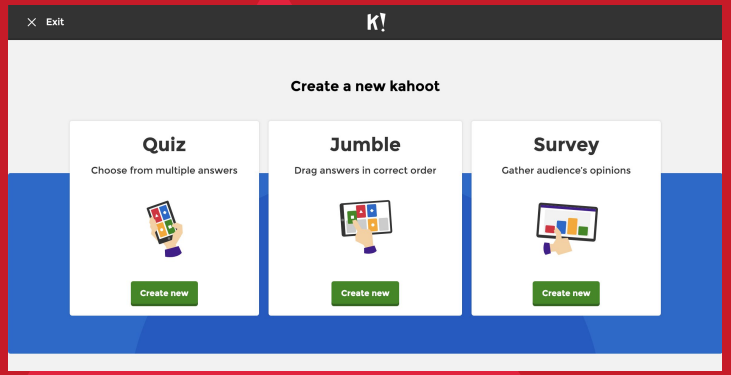
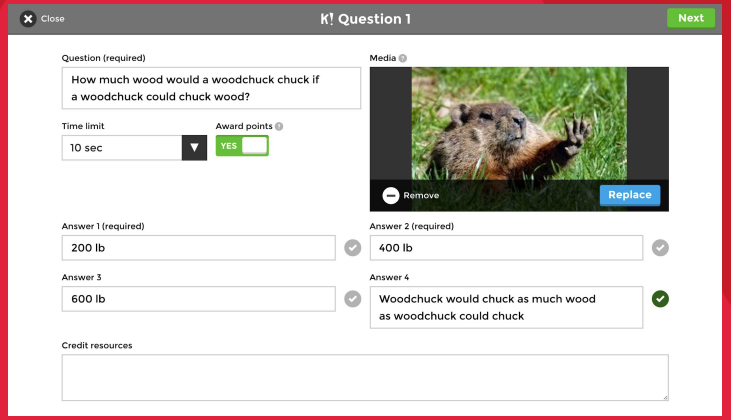
Easter Bunnies in Literature
Created about 1 year ago • **22.2k plays**
ELA by Kahoot





Creating a kahoot

Choose from three kahoot types depending on learning goals, including the classic multiple choice quiz.

Any subject, language, age.

Make your kahoot even more engaging with images, videos, and creative answer options!

Create and host in the app

Students and teachers can now easily **create and host kahoots anywhere** just with their mobile device!

Students and teachers can switch roles as students share their knowledge as a kahoot creator and host.

How teachers use Kahoot!

Review, review, and reinforce

- Reinforce knowledge
- Revise and recap topics
- Pre-assess and practice before exams

Formative assessment

- Evaluate understanding
- Use reports to track student performance over time

Homework

- Reinforce learning by assigning homework challenges with the Kahoot! app
- Save time on correcting assignments
- Make homework awesome - fun, playful and enjoyable

Turn learners into leaders

- Support students creating their own kahoots with our app
- Empower students to take control of their learning
- Deepen understanding and mastery of content
- Create anytime, anywhere

Kahoot! Certified

Take part in our certification program to claim **professional development (PD) credits, maximize learning with Kahoot!, and get rewarded with certificates and badges!**

Courses are self-paced with video and reading material.

Kahoot! Certified

Course 1
Bronze level

Get started and discover with Kahoot!

Welcome to the first course of the Kahoot! Certified program! Before we get started, please be sure not to share these guides further, as they are only for those getting certified! :)

You've taken your primary steps to becoming an expert in Kahoot!, and we can't wait to help and guide you on your way – it's onwards and upwards from here!

Once you complete this course, you'll achieve the following learning objectives:

1. Effortlessly **navigate** the Kahoot! platform
2. **Search and discover** existing high-quality kahoots from our library of millions
3. **Duplicate and customize** an existing kahoot to fit your needs
4. **Launch and host** a kahoot game in your class

After you review the course material, you'll be ready to take the assignment via our app as the next step to getting your diploma and a **Bronze** badge. With your diploma, you'll have proof of passing this course, and you could also be eligible to claim the course as a **professional development** credit. You'll then be able to proceed to the next course in the Kahoot! Certified program!

In order to complete the course assignment, you'll need to download the Kahoot! app to your iOS or Android device. You can find it in the App Store or on Google Play.

Here's a reminder of how to open a Kahoot! challenge with the assignment:

1. After downloading the Kahoot! app to your mobile device, **log in** to your Kahoot! account – we need this info to be able to send you your diploma and badge!
2. When prompted to open the assignment challenge, **click the URL** to open the challenge in-app, or enter the PIN manually
3. You'll then be able to **accept the challenge,** and play the assignment, which is structured as a multiple-choice kahoot quiz. You can do the assignment in short rounds taking breaks in between, or all at once.

How to search for kahoots

Our Kahoot! library has millions of existing public kahoots for you to play, duplicate or edit. How do you get started finding a great kahoot?

Logged in to your Kahoot! account

Once on the Discover page, the world – of kahoots! - is your oyster! Our collections of games are categorized in the following way:

- **Top Picks**
  Hand curated by the K!rew
- **Trending**
  Kahoots popular right now!
- **Collections by our content partners**
  From Code.org, American Museum of Natural History, Kaplan, and more!
- **Kahoot! Studio collections**
  Math, Science, ELA, History, and other core topics covered
- **Trivia**
  Fun, topical, or themed games to enjoy socially and test your knowledge

However, if you're looking for something specific, get started by typing a keyword or phrase into the search bar. In our example, we'll use **Periodic table.**

We'll auto-suggest popular kahoot that fit your search terms (based on factors such as number of kahoot plays), but if you want to dig deeper, you can filter by **Subject, Grade Level,** and other filters, such as language, game type, and audience (i.e. is the kahoot for school, an event, etc.)

Once you find a kahoot you like, you can play it right away, or click the star button next to it to add it to your list of **Favorites.**

You can also share links to search results for a specific keyword with your colleagues, friends or students - just copy and share the URL after you've performed a search.

How to duplicate, edit, and share kahoots

With millions of public kahoots on our platform, it's easy to find a game that's relevant to what you're looking for. However, what if it needs tweaking, personalizing or doesn't quite fit the standard you use? That's where our Duplicate feature comes in!

How to duplicate and edit a kahoot

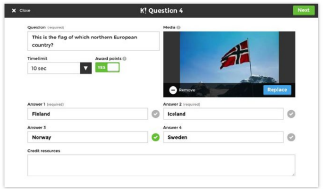
Click on a kahoot from the **Discover** page, or **Explore games** on our website, to see an overview of all the questions and preview answer options.

Once you've decided on the kahoot you want to edit, click the 3-dot dropdown next to the kahoot's title, and then hit the **Duplicate** button.

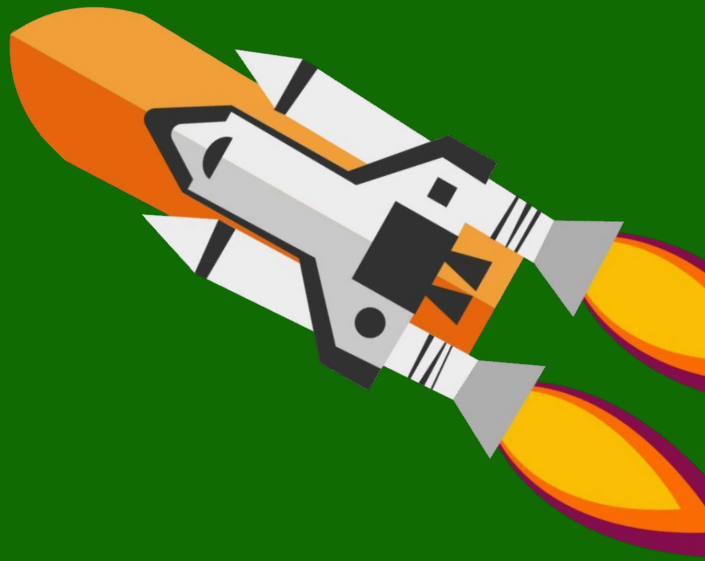
Immediately, you'll be taken to the kahoot draft page. The duplicated kahoot is also auto-saved into **My kahoots.** You'll notice that the title will be prefaced with **Duplicate of...** and the original creator of the kahoot is **always credited**.

From the kahoot draft page, you can edit the title, description, questions, change, remove, or edit answer options, rearrange question order, change the time limits for each question, and add or remove imagery and/or video.

Once the kahoot is tailored to your needs, hit **Save**, and your kahoot will be ready to **Play, Preview, Challenge** or **Share!**



Kahoot! by the numbers



1.7M
U.S. K-12 teachers hosted a kahoot in 2017 (that's just under half!)

31M
U.S. K-12 students played a kahoot in December 2017 (out of 51M)

206
Countries playing Kahoot!

51M
Kahoot! games on the platform

1.6B
Cumulative players since launch
