## A History in Service and Quality Products.

**L**ancaster has been serving the Tabletop and Small Equipment Community for over 50 years from Columbus, Ohio. Our roots have seen multiple generations of families come through the doors and help us offer the best possible Services, Products, and Relationships.

Our brands can be found in your home, your local restaurant, or even your favorite Hotel on vacation. It could be that traditional Ice Cream Cup at your local parlor or Mugs at everyone's second home, just know it has been crafted with care and built to last.

With a recent expansion of our products which includes the Wescon Boutique Line and Lancaster FS Line, we are excited to welcome a wider breadth of customers and we are open to sourcing any of your Tabletop, Decor, or Accessory needs.

Hospitality and Foodservice is the backbone of America, and we are happy to be a partner with the hardest working teams in the business. Let us know how we can best improve your "Lancaster Experience".

**Thank you to all of our partners throughout the years, in challenging times, it is those relationships that allow us to weather the storms.**

**-Fred**

# Heritage In Manufacturing

## Over 50 Years of Commercial Manufacturing and Distribution.

**O**ur injection molding machines range from 132 ton to 700 ton capacities and in addition to injection molding, Jackson Plastics also is involved in vacuum forming and structural foam molding. Four hot stamp machines are in use, allowing us to serve your decorating needs quickly and efficiently.

We recognize that each product has unique requirements, from precise tolerances to complicated assemblies to close color registration for decoration. Our

Quality Control Department maintains strict guidelines and is involved in each production run, ensuring the highest customer satisfaction.

**Our 122,000 square foot manufacturing and warehousing facility processes a wide variety of resins including:**

**ABS, Polystyrene, Polypropylene, Engineering Resins, Polyethylene, PVC, Structural Foam, and TPE.**

“

*Our clients depend on our experience and strong understanding of products in the Hospitality and Foodservice*

”

# SERVICE TRAYS

## Duratr<sup>™</sup> Room Service Tray

**W**escon's Duratr<sup>™</sup> room service trays offer all the beauty and elegance of wood with the durability of tough thermo-plastic ABS construction.

Duratr<sup>™</sup> is dishwasher safe, stackable, and extremely resistant to denting and scratching. Unlike real wood, Duratr<sup>™</sup> will not crack and fade, offering longer service life and more sanitation than real wood.

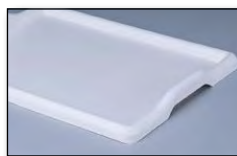

Wescon also offers solid colors as well and features a slight pebble surface to reduce slippage. Duratr<sup>™</sup> is available in a smaller continental breakfast size made from the same material as the larger ones.

Service Area: No. 09 4550 - 21 1/2" x 13 3/4",  
09 4650 - 24" x 16", 09 4700 and 09 4750 - 15 1/2" x 13 1/2"

## ACCESSORIES

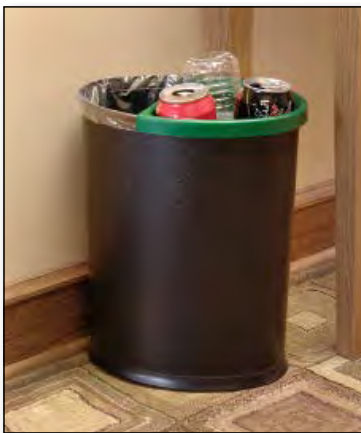

### Recycling Insert Vanity Wastebasket

**I**ntroducing Wescon's , environmentally conscious, Recycle Insert/Vanity Wastebasket. It is designed to fit our standard, 13 quart, plastic, oval wastebaskets as a Recycle Insert. The Insert allows for simple separation of trash and recyclables and can hold up to a six pack of beverage cans. It can also be used as a stand alone 5 quart Vanity Wastebasket. The tapered back design, and raised bottom rim, make it perfect for any small room. Standard color options include green, blue, or black, with the black being made with over 80% reprocessed materials.

Custom colors are available.

Ignition Resistant Colors will be lighter

09 13000	White Lacquer Faux Shagreen Desk Tray	3	29 lbs	2.23

# Custom Imprinting

## Custom Imprinting Information

**I**f you want to make an impact on guests, consider imprinting in-room supplies with your custom logo. Keep your property name in front of your customers for their entire stay. Information on ordering custom imprints may be found on the current Wescon price list. Please note that plate charges and minimum run requirements differ by item.

## Imprint Colors

**W**escon currently stocks more than 30 hot-stamp foil colors for imprinting. We carry foils to match National Chain specifications as well as various custom colors. If we don't stock the foil color you require, we are able to match many requests with the Pantone Matching System (PMS). Additional charges apply to color-match custom colors. Stock swatches of current colors are available upon request.

## Artwork & Logotypes

**T**he custom imprinting process requires the use of camera-ready artwork. If you are unable to supply artwork, Wescon's Design Department can create camera-ready materials by using your letterhead, brochures, or any other item carrying your logo. There is a nominal charge for this service, based on the time required to create the artwork.

## National Chain Logotypes

**W**escon's library of over 1,500 hot-stamp dies includes all National and many regional Hotel/Motel chains. These dies are updated shortly after we are notified of any changes by corporate correspondence. Orders placed for chain logo items which are imprinted in colors other than standard are non-returnable. In order to keep our files updated, any plates which are not used for a period of three (3) years will be destroyed.

## Die Changes

**A** one-time die charge or screen charge will be applied to the first order utilizing new custom artwork. One die or screen must be made for each color being reproduced in a logo. In addition, a separate die or screen must be made for each logo size required. Please allow six (6) to eight (8) weeks lead time for new die orders.

## Pro-Production Sample Proof

**F**or a minimal charge, a pre-production sample of your new custom imprinted item will be sent for inspection before actual production begins. A pre-production sample is recommended to assure the imprinted items meet your approval.

# Ordering Information

## Innovation Design

**W**esccon's full scale Design Department is available to aid in product development, black and white artwork production and alteration, as well as any other unique design or graphic requirements you may have.

## Customer Service

**W**esccon's Customer Service Department is always ready to assist you with your unique guest room supply requirements. We can help recommend specific items and colors to complement your room decor. Our Customer Service representatives can provide up-to-the-minute order status quickly and reliably. Orders can be shipped via UPS, Fed Ex or LTL common carrier, depending on total order weight. Our corporate LTL common carrier program is in place to offer the most competitive freight rates available.

Additional literature, product samples, color swatches and price quotations are available by contacting our Customer Service Department

## Shipping Lead-Time

**N**ormal lead time for non-imprinted orders is 7-10 working days from receipt of order. Normal shipping of standard imprinted items is 14 working days from receipt of order. Initial custom items can be shipped 6 to 8 weeks after the order. Above shipping times may vary during peak and holiday seasons.

## Glassware Shipping

**T**o help avoid breakage, we recommend that all orders which include glassware be shipped common carrier.

## Freight Shipping

**A**ll orders are shipped F.O.B. Jackson, Ohio. If not otherwise specified, Lancaster Commercial Products will select the most appropriate method for shipping.

## Return Policy

**N**o returns will be accepted without written authorization from Lancaster Commercial Products.

Please notify us immediately for authorization if you have a problem with your order. We reserve the right to limit returns to no longer than six (6) months from the date of shipment. We will refuse to accept returns when they are not accompanied by written authorization. A minimum 25% service charge to cover handling and restocking will be assessed on returned orders, but not if the error is ours; custom imprinted orders are not returnable unless the error is ours. Returns must be in original cartons and unused. Major national hotel/motel chain logos ordered in colors other than the standard, are non returnable. Merchandise not on our current price list cannot be returned.

## Damaged Orders/Shortages

**W**e are not responsible for shortage or damage claims once your order has been received by the carrier. When a freight carrier receives your order from our shipping dock, they have accepted full responsibility for the condition of the cartons and their contents. If any part of the order is damaged or missing when it arrives, have the delivering carrier acknowledge the damage or shortage and make appropriate notification on your copy of the freight receipt. Carriers must refer claims to their own claims department.

## Concealed Damage

**I**f there is concealed damage that could not be detected until merchandise is unpacked, have the carrier's agent visit your premises at once and inspect the damage in person. Ask for a "concealed damage report" and state the condition of the merchandise when it was examined. It is the carrier's duty to provide such services. Insist on it. Concealed damage reports should be made within 15 days of receipt of your order, so even if you do not plan to use an item immediately, you should always inspect it upon arrival. If you follow appropriate guidelines for dealing with problems that might develop with delivery of an order, we will help wherever possible to assist you in establishing your claim against the transportation company. If you refuse a damaged order, or fail to file a proper claim form, it will be difficult or impossible for you to receive compensation for the damaged goods.

## CRESTED WARE

If you're interested in increasing profits, personalize your glassware. Imprint your establishment's name, theme, specialty drink, or dessert on glassware and watch your profits climb.

Customers love food and beverages served in such distinctive table service.

Send us your art work, design, or idea.

Our design department will produce a special custom decorating design for your next order.

Appropriate catalog items are marked with an \* and can be silk screened in several colors.

# Glass Handling & Index

## Glass Handling

### Mechanical Impact

Whether it be a beer tap, silverware, or another glass, constant contact will cause invisible abrasions to occur, which will weaken the glass and increase the chance of breakage.

### Thermal Shock

Sudden temperature changes produce stress in glass and can cause breakage. Therefore Glassware must be allowed to reach room temperature before placement in service.

Never pick up glasses in bouquets. Avoid glass to glass contact.

Never put silverware in glasses. Bus glassware directly into divider racks or sort items in bus tray.

Never stack glasses. Avoid glass to glass contact.

Avoid glass contact with beer tap.

Never use glass for an ice scoop. Use a plastic scoop for ice.

Never overload a bus tray. Dump ice out of glasses and then sort items in bus tray. Never put cold glasses into a warm dishwasher.

Remember that thermal shock is a result of a quick temperature change and cracks that occur from Thermal Shock usually appear along abrasions caused by Mechanical Impact. Never put a cold substance, (water or ice) into a warm or hot glass. Allow the glass to reach room temperature first. (The thicker the glass, the more time required to reach room temperature.)

Handle your glassware with care and know that you are increasing your profits.
