

FOSTER INNOVATION.

A new **COMPOSTFUL™** solution for food wrap provides thin, transparent, and sticky enough performance. Its components comply with [US] Federal Food, Drug and Cosmetics Act, 21 CFR and [EU] No 10/2011 [including LFGB section 30 and 31]. **COMPOSTFUL™** food wrap works exactly same as conventional plastic wrap but without waste after use.

COMPETITIVE PERFORMANCE.

FOR FILM MANUFACTURERS:

COMPOSTFUL™ food wrap is notably strong and durable for wrapping foods or covering up left overs.

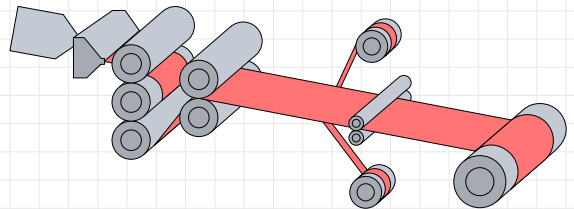

STREAMLINE PROCESSES.

FOR PROCESSORS :

It allows single-layer cast extrusion without adhesive layers. **COMPOSTFUL™** food wrap achieves antifogging and cling properties as required.
