

BRING END-TO-END SOLUTIONS.

Film manufacturers can selectively choose **COMPOSTFUL™** grades [Inc1.SF1000;PBAT/PLA Compound] that align with finished products such as various plastic bags.

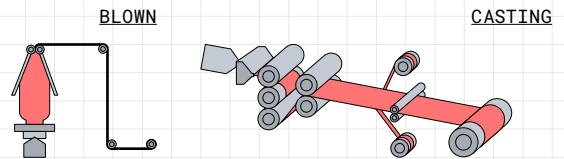

1 SELECT MATERIALS

ACCELERATE MARKET GROWTH.

We work with manufacturers across film industry value chain to enhance their manufacturing processes and improve productivity on the plastic industry standard machinery.

2 OPERATE

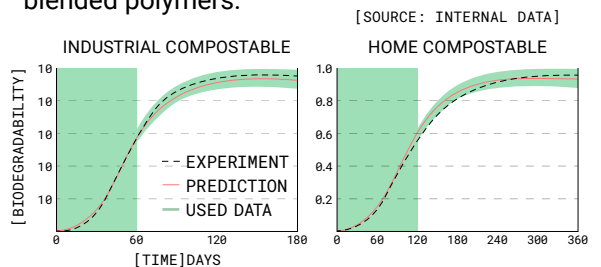

3 TAKE BENEFITS

- EXCELLENT PROCESSIBILITY
- HIGH SEALING STRENGTH
- CERTIFIED INDUSTRIAL COMPOSTABLE
- ORGANIC[FOOD] WASTE COMPOSTING

DELIVER RELIABLE TECHNOLOGIES.

By determining the parameters associated with each phenomenon, we elucidated the individual impacts of the factors on biodegradation curves. The model provides a solid foundation for the biodegradation modelling of more complex polymers, such as blended polymers.

A person is shown from the waist up, holding a large, golden-brown baguette with sesame seeds. They are also holding a clear plastic bag filled with fresh produce, including several peaches and leafy greens. The person is wearing a white t-shirt and light blue denim jeans. The background is a blurred outdoor setting with greenery and a building.

COMPOSTFUL™

We work with manufacturers across film industry value chain to enhance their manufacturing processes.
