

INCLINE MANOMETER

'Micon' Incline Manometer (water gauge) is used for measurement of small pressure with great accuracy. It consists of a 'U' glass tube of uniform bore filled with coloured liquid. U-tube is mounted on a wooden frame with Scale. The Frame can be locked in two positions.

1. At a right aangle for measurement of large pressure difference.
2. At 1 in 10 for measurement of small pressure difference.

Two Spirit-level are provided for making the equipment level when taking reading.

Adjustable Tripod Stand is available for mounting of incline Manometer (water gauge).

Pitot Tubes & PVC Tubes are also available for Manometers (water gauge).

Manufactured, Sold & Serviced by:
