

Nine years of zero penalty and 100% SLA compliance for a US network operator

The Client

Client is the third-largest wireless network operator in the United States. With a subscriber base of **55 million, and annual revenues of \$35.5b**, there is a need is for reliable service and dependable operations support. However, with **40+ applications and a complex business environment**, they faced many challenges. Mphasis has worked with them since December 2004 to achieve their business goals.

Business Objective

The company's business objectives include –

- Application maintenance and support
- Application development and testing-related services
- Technology: Mainframe, Java, Oracle, VB, .NET, AS400, C/C++, Natural Adabas, Lotus Notes, Livelink, Sharepoint, ACTUATE

The Process: How Mphasis Helped

Mphasis began with a roadmap and plan to provide development and production support for 115+ applications. Customer care support for any issues related to network provisioning applications was essential. End-to-end ownership of generating invoices for residential and enterprise wireline customers, with system upgrades, data migration and performance tuning was provided to build a solid infrastructure to enhance service and operations. Billing was also handled by Mphasis till completion, with ownership of the entire wireline billing suite of applications that includes mediation, rating, invoicing and collections. In addition to customer support, Mphasis was also responsible for generating sales compensation reports for 6,000 sales representatives.
