

**YOU'VE PROTECTED US ALL,
NOW LET US SERVE YOU.**

Tactical Recovery

We are honored to partner with the Department of Veterans Affairs Community Care Network and PsychArmor as a Veteran-Ready treatment program offering:

Medically-Supervised Detox

30-90 Day Residential Treatment

Intensive Outpatient (IOP)

Partial Hospitalization (PHP)

Sober Living opportunities for male clients

Alumni Services

(888) 991-7933 | MyVictoryCenter.com

We understand the long-lasting effects that military service has on many people who have served. The primary goal of our treatment program is to educate, support, and provide assistance to clients for lasting recovery. Victory has a multi-disciplinary team ready to help clients understand and cope with the issues specific to Veterans and work on underlying challenges that will help bring about long-term recovery.

Our team of doctors and clinicians will address the substance abuse issues as well as co-occurring conditions the individual may suffer from. Updates on progress will be provided to the Veteran's care team as preferred, along with collaborative discharge planning to promote optimal outcomes for each individual Veteran and their unique experience.

Our Tactical Recovery Program includes:

- ◆ Evidence-based therapeutic approaches: CBT, EMDR, DBT, mindfulness, REBT, and motivational interviewing
- ◆ Weekly Veteran group
- ◆ Weekly individual, group, and family therapy
- ◆ Individualized treatment plan
- ◆ 12-Step focused addiction treatment
- ◆ Medical and psychiatric oversight
- ◆ 24-hour nursing and medical support
- ◆ Comprehensive family program
- ◆ Spirituality, meditation, and yoga
