

Openpath GDPR DATA PROCESSING ADDENDUM

This Data Processing Addendum (“**DPA**”) supplements the Openpath Terms and Conditions available through the Openpath Control Portal as updated from time to time between Customer and Openpath, or other agreement between Customer and Openpath governing Customer’s use of the Service Offerings (the “**Agreement**”) when the GDPR applies to your use of the Openpath Services to process Customer Data. This DPA is an agreement between you and the entity you represent (“**Customer**”, “**you**” or “**your**”) and the applicable Openpath contracting entity under the Agreement (“**Openpath**”). Unless otherwise defined in this DPA or in the Agreement, all capitalized terms used in this DPA will have the meanings given to them in Section 17 of this DPA.

1. Data Processing.

1. **1.1 Scope and Roles.** This DPA applies when Customer Data is processed by OPENPATH. In this context, OPENPATH will act as “processor” to Customer who may act either as “controller” or “processor” with respect to Customer Data (as each term is defined in the GDPR).

2. **1.2 Customer Controls.** The Services provide Customer with a number of controls, including security features and functionalities, that Customer may use to retrieve, correct, anonymize or restrict Customer Data as described in the Documentation. Without prejudice to Section 5.1, Customer may use these controls as technical and organizational measures to assist it in connection with its obligations under the GDPR, including its obligations relating to responding to requests from data subjects.

3. 1.3 Details of Data Processing.

1.3.1 Subject matter. The subject matter of the data processing under this DPA is Customer Data.

1.3.2 Duration. The duration of the data processing under this DPA is two years from collection of the data.

1.3.3 Purpose. The purpose of the data processing under this DPA is the provision of the Services initiated by Customer.

1.3.4 Nature of the processing: Logging, reporting and such other Services as described in the Documentation and initiated by Customer from time to time.

1.3.5 Type of Customer Data: End user data includes name, email address, profile picture (optional), mobile device and log information, entry time stamp, Bluetooth signal, Technical Support feedback information, end user data in audit logs **and any additional optional data submitted by controller.**

1.3.6 Categories of data subjects: The data subjects may include Customer’s customers, employees, suppliers and end-users.

4. **1.4 Compliance with Laws.** Each party will comply with all laws, rules and regulations applicable to it and binding on it in the performance of this DPA, including the GDPR.

2. Customer Instructions. The parties agree that this DPA and the Agreement (including the provision of instructions via configuration tools such as the Openpath Control Portal and APIs made available by OPENPATH for the Services) constitute Customer’s documented instructions regarding OPENPATH’s processing of Customer Data (“Documented Instructions”). OPENPATH will process Customer Data only in accordance with Documented Instructions. Additional instructions outside the scope of the Documented Instructions (if any) require prior written agreement between OPENPATH and Customer, including agreement on any additional fees payable by Customer to OPENPATH for carrying out such instructions. Customer is entitled to terminate this DPA and the Agreement if OPENPATH declines to follow instructions requested by Customer that are outside the scope of, or changed from, those given or agreed to be given in this DPA.

3. Confidentiality of Customer Data. OPENPATH will not access or use, or disclose to any third party, any Customer Data, except, in each case, as necessary to maintain or provide the Services, or as necessary to comply with the law or a valid and binding order of a governmental body (such as a subpoena or court order). If a governmental body sends OPENPATH a demand for Customer Data, OPENPATH will attempt to redirect the governmental body to request that data directly from Customer. As part of this effort, OPENPATH may provide Customer’s basic contact information to the governmental body. If compelled to disclose Customer Data to a governmental body, then OPENPATH will give Customer reasonable notice of the demand to allow Customer to seek a protective order or other appropriate remedy unless OPENPATH is legally prohibited from doing so. If the Standard Contractual Clauses apply, nothing in this Section 3 varies or modifies the Standard Contractual Clauses.

4. Confidentiality Obligations of OPENPATH Personnel. OPENPATH restricts its personnel from processing Customer Data without authorization by OPENPATH as described in the OPENPATH Information Security Policy. OPENPATH imposes appropriate contractual obligations upon its personnel, including relevant obligations regarding confidentiality, data protection and data security.

5. Security of Data Processing

5.1 OPENPATH has implemented and will maintain security measures for the OPENPATH Network as described in the OPENPATH Security Policy and this Section. In particular, OPENPATH has implemented and will maintain the following technical and organizational measures:

(a) security of the OPENPATH Network in accordance with the NIST Cloud Security Framework;

(b) physical security of the facilities as set out in the OPENPATH Technical and Organizational Security Measures document;

(c) measures to control access rights for OPENPATH employees and contractors in relation to the OPENPATH Network as set out in the OPENPATH Technical and Organizational Security Measures document; and

(d) processes for regularly testing, assessing and evaluating the effectiveness of the technical and organizational measures implemented by OPENPATH as described in the OPENPATH Security Policy.

5.2 Customer may elect to implement technical and organizational measures in relation to Customer Data. Such technical and organizational measures include the following which may be obtained by Customer from OPENPATH as described in the Documentation, or directly from a third party supplier:

- a) anonymization of user data to ensure an appropriate level of security and privacy;
- b) measures to ensure the ongoing confidentiality, integrity, availability and resilience of the processing systems and services that are being operated by Customer;
- c) measures to allow Customer to backup and archive appropriately in order to restore availability and access to Customer Data in a timely manner in the event of a physical or technical incident; and
- d) processes for regularly testing, assessing and evaluating the effectiveness of the technical and organizational measures implemented by Customer.
- e) Using multi-factor authentication in accessing the OPENPATH control center for added security.

6. Sub-processing.

6.1 Authorized Sub-processors. Customer agrees that OPENPATH may use subprocessors to fulfill its contractual obligations under this DPA or to provide certain services on its behalf, such as providing support services. Customer consents to OPENPATH's use of sub-processors as described in this Section. Except as set forth in this Section, or as Customer may otherwise authorize, OPENPATH will not permit any sub-processor to carry out processing activities on Customer Data on behalf of Customer.

6.2 Sub-processor Obligations. Where OPENPATH authorizes any sub-processor as described in Section 6.1:

- (i) OPENPATH will restrict the sub-processor's access to Customer Data only to what is necessary to maintain the Services or to provide the Services to Customer and any End Users in accordance with the Documentation and OPENPATH will prohibit the sub-processor from accessing Customer Data for any other purpose;
- (ii) OPENPATH will remain responsible for its compliance with the obligations of this DPA and for any acts or omissions of the sub-processors that cause OPENPATH to breach any of OPENPATH's obligations under this DPA.

7. Data Subject Rights

Taking into account the nature of the Services, OPENPATH offers Customer certain controls as described in Sections 1.2 and 5.2 that Customer may elect to use to comply with its obligations towards data subjects. Should a data subject contact OPENPATH with regard to correction or deletion of its personal data, OPENPATH will use commercially reasonable efforts to forward such requests to Customer.

8. **Optional Security Features.** OPENPATH makes available a number of security features and functionalities that Customer may elect to use. Customer is responsible for (a) implementing the measures described in Section 5.2, as appropriate, (b) properly configuring the Services, (c) using the controls available in connection with the Services (including the security controls) to allow Customer to restore the availability and access to Customer Data in a timely manner in the event of a physical or technical incident (e.g. backups and routine archiving of Customer Data), and (d) taking such steps as Customer considers adequate to maintain appropriate security, protection, and deletion of Customer Data, which includes use of encryption technology to protect Customer Data from unauthorized access and measures to control access rights to Customer Data.

9. Security Breach Notification.

9.1 Security Incident. OPENPATH will (a) notify Customer of a Security Incident without undue delay after becoming aware of the Security Incident, and (b) take reasonable steps to mitigate the effects and to minimize any damage resulting from the Security Incident.

9.2 OPENPATH Assistance. To assist Customer in relation to any personal data breach notifications Customer is required to make under the GDPR, OPENPATH will include in the notification under section 9.1(a) such information about the Security Incident as OPENPATH is reasonably able to disclose to Customer, taking into account the nature of the Services, the information available to OPENPATH, and any restrictions on disclosing the information, such as confidentiality.

9.3 Unsuccessful Security Incidents. Customer agrees that:

(i) an unsuccessful Security Incident will not be subject to this Section 9. An unsuccessful Security Incident is one that results in no unauthorised access to Customer Data or to any of OPENPATH's equipment or facilities storing Customer Data, and may include, without limitation, pings and other broadcast attacks on firewalls or edge servers, port scans, unsuccessful log-on attempts, denial of service attacks, packet sniffing (or other unauthorised access to traffic data that does not result in access beyond headers) or similar incidents; and

(ii) OPENPATH's obligation to report or respond to a Security Incident under this Section 9 is not and will not be construed as an acknowledgement by OPENPATH of any fault or liability of OPENPATH with respect to the Security Incident.

9.4 Communication. Notification(s) of Security Incidents, if any, will be delivered to one or more of Customer's administrators by any means OPENPATH selects, including via email. It is Customer's sole responsibility to ensure Customer's administrators maintain accurate contact information on the OPENPATH management console and secure transmission at all times.

10. OPENPATH Certifications and Audits.

10.1 OPENPATH Audits. OPENPATH uses external auditors to verify the adequacy of its security measures, including the security of the physical data centers from which OPENPATH provides the Services. This audit: (a) will be performed at least annually; (b) will be performed according to SOC 2 standards or such other alternative standards that are substantially equivalent to SOC 2; (c) will be performed by independent third party security professionals at OPENPATH's selection and expense; and (d) will result in the generation of an audit report ("**Report**"), which will be OPENPATH's Confidential Information.

10.2 Privacy Impact Assessment and Prior Consultation. Taking into account the nature of the Services and the information available to OPENPATH, OPENPATH will assist Customer in complying with Customer's obligations in respect of data protection impact assessments and prior consultation pursuant to Articles 35 and 36 of the GDPR, by providing the information OPENPATH makes available under this Section 10.

11. **Customer Audits.** Customer agrees to exercise any right it may have to conduct an audit or inspection, including under the Standard Contractual Clauses if they apply, by instructing OPENPATH to carry out the audit described in Section 10. If Customer wishes to change this instruction regarding the audit, then Customer has the right to request a change to this instruction by sending OPENPATH written notice as provided for in the Agreement. If OPENPATH declines to follow any instruction requested by Customer regarding audits or inspections, Customer is entitled to terminate this DPA and the Agreement. If the Standard Contractual Clauses apply, nothing in this Section varies or modifies the Standard Contractual Clauses nor affects any supervisory authority's or data subject's rights under the Standard Contractual Clauses.

12. Transfers of Personal Data.

12.1 Application of Standard Contractual Clauses. The Standard Contractual Clauses will apply to Customer Data that is transferred outside the UK, either directly or via onward transfer, to any country not recognized by the UK as providing an adequate level of protection for personal data (as described in the GDPR). The Standard Contractual Clauses will not apply to Customer Data that is not transferred, either directly or via onward transfer, outside the UK. Notwithstanding the foregoing, the Standard Contractual Clauses (or obligations the same as those under the Standard Contractual Clauses) will not apply if OPENPATH has adopted Binding Corporate Rules for Processors or an alternative recognised compliance standard for the lawful transfer of personal data (as defined in the GDPR) outside the UK.

12.2If OPENPATH is required by law or in response to a competent regulatory or government agency to disclose or surrender personal data transferred by Customer, OPENPATH will (to the extent legally possible) not provide the personal data until instructed to do so by Customer and will notify Customer with enough:

- (a) information; and
- (b) notice,

to enable Customer to challenge the legal or competent regulatory or government agency requirement and will provide Customer with all the cooperation and assistance as reasonably required.

12.3Where OPENPATH fails to comply with this Agreement, or where, despite this Agreement, a level of protection essentially equivalent to that guaranteed by the Data Protection Legislation (in the reasonable opinion of the Customer) cannot be ensured, Customer may suspend or terminate transfers of personal data to OPENPATH located in a Third Country, and Customer may terminate the Service in whole or in part on 30 days' prior written notice at no additional cost and without further liability either, and where fees for the Services are paid in advance, it shall be entitled to a prorated refund in respect of fees paid for Services not provided in accordance with the Agreement as at the effective date of termination.

12.4The parties acknowledge and agree that the Standard Contractual Clauses may not, in isolation, ensure that OPENPATH'S processing complies with the international transfer requirements and, the parties agree to cooperate with each other in good faith to agree to written variations to this Agreement, and to take such action as may reasonably be required, to ensure that such processing complies with the international transfer requirements. To the extent that Customer determines that the processing cannot comply with the international transfer requirements, Customer may at no additional cost and without further liability either:

- 12.4.1 request OPENPATH to evaluate the feasibility of processing personal data within certain jurisdictions subject to certain restrictions, supplementary measures and/or safeguards; and/or
- 12.4.2 terminate the Service in whole or in part on 30 days' prior written notice and where fees for the Service are paid in advance, it shall be entitled to a prorated refund in respect of fees paid for Service not provided in accordance with the Agreement as at the effective date of termination.

13. Termination of the DPA. This DPA shall continue in force until the termination of the Agreement (the "Termination Date").

14. Return or Deletion of Customer Data. The Services provide Customer with controls that Customer may use to retrieve or anonymize Customer Data as described in the Documentation. Up to the Termination Date, Customer will continue to have the ability to retrieve or anonymize Customer Data in accordance with this Section.

15. **Duties to Inform.** Where Customer Data becomes subject to confiscation during bankruptcy or insolvency proceedings, or similar measures by third parties while being processed by OPENPATH, OPENPATH will inform Customer without undue delay. OPENPATH will, without undue delay, notify all relevant parties in such action (e.g. creditors, bankruptcy trustee) that any Customer Data subjected to those proceedings is Customer's property and area of responsibility and that Customer Data is at Customer's sole disposition.
16. **Entire Agreement; Conflict.** Except as amended by this DPA, the Agreement will remain in full force and effect. If there is a conflict between any other agreement between the parties

including the Agreement and this DPA, the terms of this DPA will control, except that the Service Terms will control over this DPA.

17. **Definitions.** Unless otherwise defined in the Agreement, all capitalized terms used in this DPA will have the meanings given to them below:

"OPENPATH Network" means compute, storage, processing, and delivery services provided to OPENPATH by cloud service providers such as AWS, Microsoft, Google, and or others as necessary to provide the Services.

"Customer" means you or the entity you represent.

"Customer Data" means the "personal data" (as defined in the GDPR) that is uploaded to the Services under Customer's OPENPATH accounts.

"GDPR" means collectively the UK GDPR and the Data Protection Act 2018 ("DPA 2018")

"processing" has the meaning given to it in the GDPR and "process", "processes" and "processed" will be interpreted accordingly.

"Security Incident" means a breach of OPENPATH's security leading to the accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, Customer Data.

"Standard Contractual Clauses" means Annex 2, attached to and forming part of this DPA pursuant to the European Commission Decision of 5 February 2010 on standard contractual clauses for the transfer of personal data to processors established in third countries under Directive 95/46/EC and still in force in the UK with authorised amendments.

"Third Country" means a country other than the United Kingdom (UK) that has not been the subject of a finding of an adequate level of protection by the UK.

IN WITNESS WHEREOF, the parties are signing this Agreement as of the Effective Date.

Annex 1 OPENPATH Security Standards

Capitalized terms not otherwise defined in this document have the meanings assigned to them in the Agreement.

1. Information Security Program. OPENPATH will maintain an information security program (including the adoption and enforcement of internal policies and procedures) designed to (a) help Customer secure Customer Data against accidental or unlawful loss, access or disclosure, (b) identify reasonably foreseeable and internal risks to security and unauthorized access to the OPENPATH Network, and (c) minimize security risks, including through risk assessment and regular testing.

1.1 Network Security. The OPENPATH Network will be electronically accessible to employees, contractors and any other person as necessary to provide the Services. OPENPATH will maintain access controls and policies to manage what access is allowed to the OPENPATH Network from each network connection and user, including the use of firewalls or functionally equivalent technology and authentication controls. OPENPATH will maintain corrective action and incident response plans to respond to potential security threats.

1.2 Physical Security

1.2.1 Physical Access Controls. Physical components of the OPENPATH Network are housed at cloud service providers such as AWS, Microsoft, or Google. OPENPATH has reviewed their security, privacy and compliance programs to ensure it meets OPENPATH requirements.

1.2.2 Limited Employee and Contractor Access. OPENPATH provides access to the Facilities to those employees and contractors who have a legitimate business need for such access privileges. When an employee or contractor no longer has a business need for the access privileges assigned to him/her, the access privileges are promptly revoked, even if the employee or contractor continues to be an employee of OPENPATH or its Affiliates.

1.2.3 Physical Security Protections. All access points (other than main entry doors) are maintained in a secured (locked) state. OPENPATH also maintains electronic intrusion detection systems designed to detect unauthorized access to the Facilities, including monitoring points of vulnerability (e.g., primary entry doors, emergency egress doors, roof hatches, dock bay doors, etc.) with door contacts, glass breakage devices, interior motion-detection, or other devices designed to detect individuals attempting to gain access to the Facilities. All physical access to the Facilities by employees and contractors is logged and routinely audited.

2. Continued Evaluation. OPENPATH will conduct periodic reviews of the security of its OPENPATH Network and adequacy of its information security program as measured against industry security standards and its policies and procedures. OPENPATH will continually evaluate the security of its OPENPATH Network and associated Services to determine whether additional or different security measures are required to respond to new security risks or findings generated by the periodic reviews.

Annex 2 Standard Contractual Clauses (processors)

For the purposes of Article 26(2) of Directive 95/46/EC for the transfer of personal data to processors established in third countries which do not ensure an adequate level of data protection The entity identified as “Customer” in the DPA (the “**data exporter**”) and

Openpath Security, Inc.

13428 Maxella Ave, #866, Marina Del Rey, CA 90292, USA. (the “**data importer**”) each

a “party”; together “the parties”,

HAVE AGREED on the following Contractual Clauses (the Clauses) in order to adduce adequate safeguards with respect to the protection of privacy and fundamental rights and freedoms of individuals for the transfer by the data exporter to the data importer of the personal data specified in Appendix 1.

For the purposes of the Clauses:

Clause 1

Definitions

- (a) '*personal data*', '*special categories of data*', '*process/processing*', '*controller*', '*processor*', '*data subject*' and '*supervisory authority*' shall have the same meaning as in UK GDPR;
- (b) '*the data exporter*' means the controller who transfers the personal data;
- (c) '*the data importer*' means the processor who agrees to receive from the data exporter personal data intended for processing on his behalf after the transfer in accordance with his instructions and the terms of the Clauses and who is not subject to a third country's system ensuring adequate protection within the meaning of Article 25(1) of Directive 95/46/EC;
- (d) '*the subprocessor*' means any processor engaged by the data importer or by any other subprocessor of the data importer who agrees to receive from the data importer or from any other subprocessor of the data importer personal data exclusively intended for processing activities to be carried out on behalf of the data exporter after the transfer in accordance with his instructions, the terms of the Clauses and the terms of the written subcontract;
- (e) '*the applicable data protection law*' means the legislation protecting the fundamental rights and freedoms of individuals and, in particular, their right to privacy with respect to the processing of personal data applicable to a data controller in the Member State in which the data exporter is established;

- (f) *'technical and organisational security measures'* means those measures aimed at protecting personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing.

Clause 2

Details of the transfer

The details of the transfer and in particular the special categories of personal data where applicable are specified in section 1.3

Clause 3

Third-party beneficiary clause

1. The data subject can enforce against the data exporter this Clause, Clause 4(b) to (i), Clause 5(a) to (e), and (g) to (j), Clause 6(1) and (2), Clause 7, Clause 8(2), and Clauses 9 to 12 as third-party beneficiary.
2. The data subject can enforce against the data importer this Clause, Clause 5(a) to (e) and (g), Clause 6, Clause 7, Clause 8(2), and Clauses 9 to 12, in cases where the data exporter has factually disappeared or has ceased to exist in law unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law, as a result of which it takes on the rights and obligations of the data exporter, in which case the data subject can enforce them against such entity.
3. The data subject can enforce against the sub-processor this Clause, Clause 5(a) to (e) and (g), Clause 6, Clause 7, Clause 8(2), and Clauses 9 to 12, in cases where both the data exporter and the data importer have factually disappeared or ceased to exist in law or have become insolvent, unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law as a result of which it takes on the rights and obligations of the data exporter, in which case the data subject can enforce them against such entity. Such third-party liability of the sub-processor shall be limited to its own processing operations under the Clauses.
4. The parties do not object to a data subject being represented by an association or other body if the data subject so expressly wishes and if permitted by national law.

Clause 4

Obligations of the data exporter

The data exporter agrees and warrants:

- (a) that the processing, including the transfer itself, of the personal data has been and will continue to be carried out in accordance with the relevant provisions of the applicable data protection law (and, where applicable, has been notified to the relevant authorities of the Member State where the data exporter is established) and does not violate the relevant provisions of that State;
- (b) that it has instructed and throughout the duration of the personal data processing services will instruct the data importer to process the personal data transferred only on the data exporter's behalf and in accordance with the applicable data protection law and the Clauses;
- (c) that the data importer will provide sufficient guarantees in respect of the technical and organizational security measures specified in Annex 1 to this contract;
- (d) that after assessment of the requirements of the applicable data protection law, the security measures are appropriate to protect personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorized disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing, and that these measures ensure a level of security appropriate to the risks presented by the processing and the nature of the data to be protected having regard to the state of the art and the cost of their implementation;
- (e) that it will ensure compliance with the security measures;
- (f) that, if the transfer involves special categories of data, the data subject has been informed or will be informed before, or as soon as possible after, the transfer that its data could be transmitted to a third country not providing adequate protection within the meaning of Directive 95/46/EC;
- (g) to forward any notification received from the data importer or any subprocessor pursuant to Clause 5(b) and Clause 8(3) to the data protection supervisory authority if the data exporter decides to continue the transfer or to lift the suspension;
- (h) to make available to the data subjects upon request a copy of the Clauses and a summary description of the security measures, as well as a copy of any contract for subprocessing services which has to be made in accordance with the Clauses, unless the Clauses or the contract contain commercial information, in which case it may remove such commercial information;
- (i) that, in the event of subprocessing, the processing activity is carried out in accordance with Clause 11 by a subprocessor providing at least the same level of protection for the personal data and the rights of data subject as the data importer under the Clauses; and

(j) that it will ensure compliance with Clause 4(a) to (i).

Clause 5

Obligations of the data importer¹

The data importer agrees and warrants:

- (a) to process the personal data only on behalf of the data exporter and in compliance with its instructions and the Clauses; if it cannot provide such compliance for whatever reasons, it agrees to inform promptly the data exporter of its inability to comply, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;
- (b) that it has no reason to believe that the legislation applicable to it prevents it from fulfilling the instructions received from the data exporter and its obligations under the contract and that in the event of a change in this legislation which is likely to have a substantial adverse effect on the warranties and obligations provided by the Clauses, it will promptly notify the change to the data exporter as soon as it is aware, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;
- (c) that it has implemented the technical and organizational security measures specified in Annex 1 before processing the personal data transferred;
- (d) that it will promptly notify the data exporter about:
 - (i) any legally binding request for disclosure of the personal data by a law enforcement authority unless otherwise prohibited, such as a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation,
 - (ii) any accidental or unauthorized access, and
 - (iii) any request received directly from the data subjects without responding to that request, unless it has been otherwise authorized to do so;
- (e) to deal promptly and properly with all inquiries from the data exporter relating to its processing of the personal data subject to the transfer and to abide by the advice of the supervisory authority with regard to the processing of the data transferred;
- (f) at the request of the data exporter to submit its data-processing facilities for audit of the processing activities covered by the Clauses which shall be carried out by the data exporter or an inspection body composed of independent members and in possession of the required professional qualifications bound by a duty of confidentiality, selected by the data exporter, where applicable, in agreement with the supervisory authority;

- (g) to make available to the data subject upon request a copy of the Clauses, or any existing contract for subprocessing, unless the Clauses or contract contain commercial information, in which case it may remove such commercial information, with the exception of Appendix 2 which shall be replaced by a summary description of the security measures in those cases where the data subject is unable to obtain a copy from the data exporter;
- (h) that, in the event of subprocessing, it has previously informed the data exporter and obtained its prior written consent;
- (i) that the processing services by the subprocessor will be carried out in accordance with Clause 11;
- (j) to send promptly a copy of any subprocessor agreement it concludes under the Clauses to the data exporter.

1

Mandatory requirements of the national legislation applicable to the data importer which do not go beyond what is necessary in a democratic society on the basis of one of the interests listed in Article 13(1) of Directive 95/46/EC, that is, if they constitute a necessary measure to safeguard national security, defense, public security, the prevention, investigation, detection and prosecution of criminal offences or of breaches of ethics for the regulated professions, an important economic or financial interest of the State or the protection of the data subject or the rights and freedoms of others, are not in contradiction with the standard contractual clauses. Some examples of such mandatory requirements which do not go beyond what is necessary in a democratic society are, inter alia, internationally recognized sanctions, tax-reporting requirements or anti-money-laundering reporting requirements.

Clause 6

Liability

1. The parties agree that any data subject, who has suffered damage as a result of any breach of the obligations referred to in Clause 3 or in Clause 11 by any party or subprocessor is entitled to receive compensation from the data exporter for the damage suffered.
2. If a data subject is not able to bring a claim for compensation in accordance with paragraph 1 against the data exporter, arising out of a breach by the data importer or his subprocessor of any of their obligations referred to in Clause 3 or in Clause 11, because the data exporter has factually disappeared or ceased to exist in law or has become insolvent, the data importer agrees that the data subject may issue a claim against the data importer as if it were the data exporter, unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law, in which case the data subject can enforce its rights

against such entity. The data importer may not rely on a breach by a subprocessor of its obligations in order to avoid its own liabilities.

3. If a data subject is not able to bring a claim against the data exporter or the data importer referred to in paragraphs 1 and 2, arising out of a breach by the subprocessor of any of their obligations referred to in Clause 3 or in Clause 11 because both the data exporter and the data importer have factually disappeared or ceased to exist in law or have become insolvent, the subprocessor agrees that the data subject may issue a claim against the data subprocessor with regard to its own processing operations under the Clauses as if it were the data exporter or the data importer, unless any successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law, in which case the data subject can enforce its rights against such entity. The liability of the subprocessor shall be limited to its own processing operations under the Clauses.

Clause 7

Mediation and jurisdiction

1. The data importer agrees that if the data subject invokes against it third-party beneficiary rights and/or claims compensation for damages under the Clauses, the data importer will accept the decision of the data subject:
 - (a) to refer the dispute to mediation, by an independent person or, where applicable, by the supervisory authority;
 - (b) to refer the dispute to the courts in the Member State in which the data exporter is established.
2. The parties agree that the choice made by the data subject will not prejudice its substantive or procedural rights to seek remedies in accordance with other provisions of national or international law.

Clause 8

Cooperation with supervisory authorities

1. The data exporter agrees to deposit a copy of this contract with the supervisory authority if it so requests or if such deposit is required under the applicable data protection law.
2. The parties agree that the supervisory authority has the right to conduct an audit of the data importer, and of any subprocessor, which has the same scope and is subject to the same conditions as would apply to an audit of the data exporter under the applicable data protection law.
3. The data importer shall promptly inform the data exporter about the existence of legislation applicable to it or any subprocessor preventing the conduct of an audit of the data importer, or any subprocessor, pursuant to paragraph 2. In such a case the data exporter shall be entitled to take the measures foreseen in Clause 5 (b).

Clause 9

Governing Law

The Clauses shall be governed by the law of the Member State in which the data exporter is established.

Clause 10

Variation of the contract

The parties undertake not to vary or modify the Clauses. This does not preclude the parties from adding clauses on business related issues where required as long as they do not contradict the Clause.

Clause 11

Subprocessing

1. The data importer shall not subcontract any of its processing operations performed on behalf of the data exporter under the Clauses without the prior written consent of the data exporter. Where the data importer subcontracts its obligations under the Clauses, with the consent of the data exporter, it shall do so only by way of a written agreement with the subprocessor which imposes the same obligations on the subprocessor as are imposed on the data importer under the Clauses. Where the subprocessor fails to fulfil its data protection obligations under such written agreement the data importer shall remain fully liable to the data exporter for the performance of the subprocessor's obligations under such agreement.
2. The prior written contract between the data importer and the subprocessor shall also provide for a third-party beneficiary clause as laid down in Clause 3 for cases where the data subject is not able to bring the claim for compensation referred to in paragraph 1 of Clause 6 against the data exporter or the data importer because they have factually disappeared or have ceased to exist in law or have become insolvent and no successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law. Such thirdparty liability of the subprocessor shall be limited to its own processing operations under the Clauses.
3. The provisions relating to data protection aspects for subprocessing of the contract referred to in paragraph 1 shall be governed by the law of the Member State in which the data exporter is established.
4. The data exporter shall keep a list of subprocessing agreements concluded under the Clauses and notified by the data importer pursuant to Clause 5 (j), which shall be updated at least once a year. The list shall be available to the data exporter's data protection supervisory authority.

Clause 12

Obligation after the termination of personal data processing services

1. The parties agree that on the termination of the provision of data processing services, the data importer and the subprocessor shall destroy all the personal data within 2 years of termination of services and certify to the data exporter that it has done so, unless legislation imposed upon the data importer prevents it from returning or destroying all or part of the personal data transferred. In that case, the data importer warrants that it will guarantee the confidentiality of the personal data transferred and will not actively process the personal data transferred anymore.
2. The data importer and the sub-processor warrant that upon request of the data exporter and/or of the supervisory authority, it will submit its data-processing facilities for an audit of the measures referred to in paragraph 1.

APPENDIX 1 TO THE STANDARD CONTRACTUAL CLAUSES

Data exporter

The data exporter is the entity identified as “Customer” in the DPA

Data importer

The data importer is Openpath Security, Inc., a provider of access control services.

Data subjects

Data subjects are defined in Section 1.3 of the DPA.

Categories of data

The personal data is defined in Section 1.3 of the DPA.

Processing operations

The personal data transferred will be subject to the following basic processing activities defined in Section 1.3 of the DPA.

APPENDIX 2 TO THE STANDARD CONTRACTUAL CLAUSES

This Appendix forms part of the Clauses and must be completed by the parties.

Description of the technical and organisational security measures implemented by the data importer in accordance with Clauses 4(d) and 5(c) (or document/legislation attached):

The technical and organisational security measures implemented by the data importer are as described in the DPA.
