About us

OPPIOT is one of the major manufacturers and suppliers of RFID industrial tags in China. Possessing a full set of RFID manufacturing equipment and a high professional and creative RFID R&D team, OPPIOT has strong independent development ability in UHF field. We stick to the principle of "Independent research and development, Independent innovation, Independent production", provide customers all over the world with high-performance, high-reliable customized and practical RFID Tag solutions. Our company has passed the ISO9001 quality management system certification and ISO14001 environmental management system certification, all products have also passed RoHs, Reach, CE and ATEX certifications etc.

OPPIOT focuses on RFID customized tag solutions, service covering power equipment management, railway management, automobile manufacturing management, medical sterilization management, oil&gas management, semiconductor management, retail management etc.

Since establishment in 2013, OPPIOT always puts customers' demands first and strives to realize the corporate vision of creating value for customers, keeps developing and innovating in RFID field. So far we have obtained several related patents because of our outstanding achievements in R&D and customization service.

Our Equipments

We have production line for RFID tags with bringing in advanced full set of equipments of bonding, sealing and testing. We offer customization service for customers in different industries both from domestic and abroad. We're committed to reinforcing our core competency in research and development, striving for excellence and mutual development.

Our Quality

Quality is the foundation of a company's development. All of our products have been strictly tested by Voyantic's equipment to make sure the consistency of each batch of products until delivery.

CE

RoHS

Reach

ISO14001: 2015

ISO9001: 2015

Ex Certifications

1. OPPIOT has been certified to ISO9001 Quality Management System and ISO14001 Environmental Management standards.
2. Our products have passed RoHS, Reach, and ATEX Certifications.

Customization Service

OEM/ODM customization workflow:

1. Customer requirement
2. Feasibility evaluation
3. Cost estimation
4. Antenna design (customer confirmation required)
5. Mould design (customer confirmation required)
6. Mould production according to the drawing
7. Sample trial production
8. Testing
9. Mass production
10. Delivery

OPPIOT has been engaged in RFID field for more than 10 years. We have extensive experience and professional knowledge on RFID tags designing and can provide fast customization service. We've been working with a number of major companies worldwide and have offered numerous solutions to customers from different industries. We offer better service with more professional attitude to meet your greater demands.

DevilM18
260°C High Temperature Screw RFID Tag

Devil5600
260°C High Temperature RFID Tag

DevilD30-1

DevilD30-2

260°C High Temperature Embedded RFID Tag

RFID Protocol:EPC Class1 Gen2, ISO18000-6C

Model	Size(mm)	Material	Mounting Methods	Frequency	IC Type	Memory	Applicable Surface	Read Range (Fixed Reader)		Read Range (Handheld)		Operating Temperature	Weight (g)
								(US) 902-928MHz	(EU) 865-868MHz	(US) 902-928MHz	(EU) 865-868MHz		
DevilM18	Diameter 18, Height 11	304 Stainless Steel	Screw	(US) 902-928MHz, (EU) 865-868MHz	Alien Higgs-3, NXP UCODE8	EPC 96bits (up to 480bits), USER 512bits,TID 64bits	Metal Surface	0.9m	0.8m	0.35m	0.35m	-40°C to +150°C	13.5
