

# WOOCOMMERCE SET-UP GUIDE

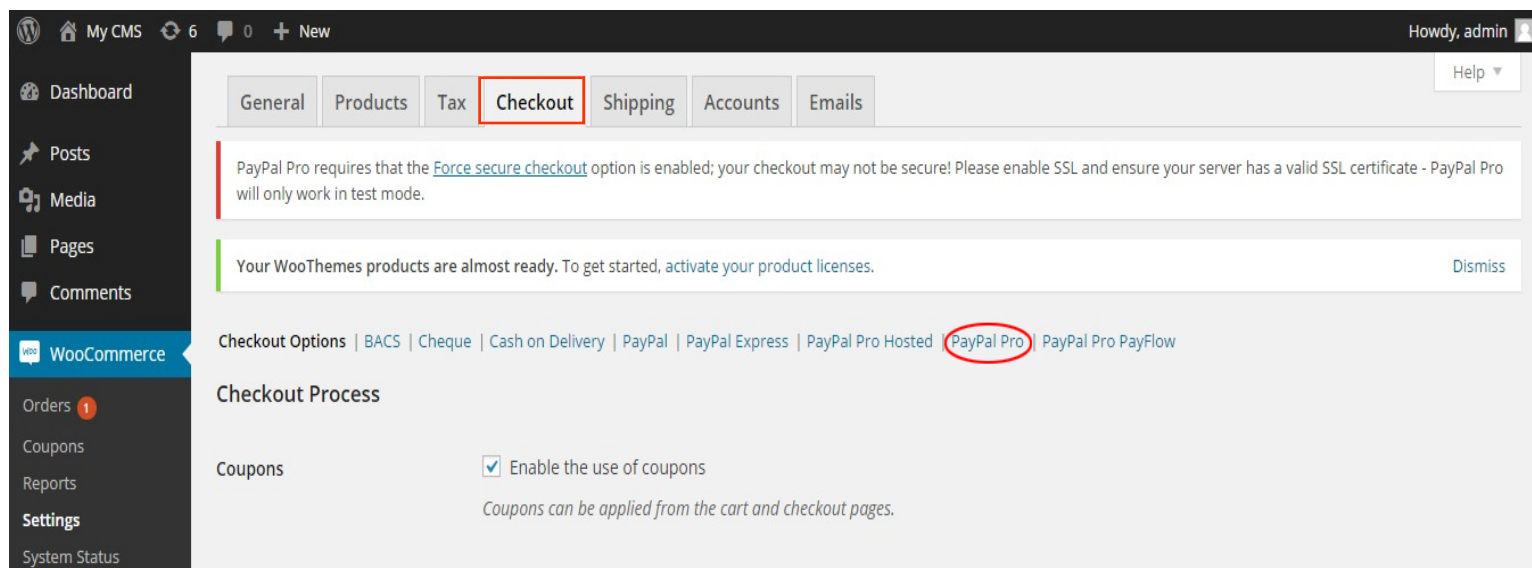

CardinalCommerce...moving transactions from any place  
to the right place...THE RIGHT WAY.

## Setting up PayPal Website Payments Pro

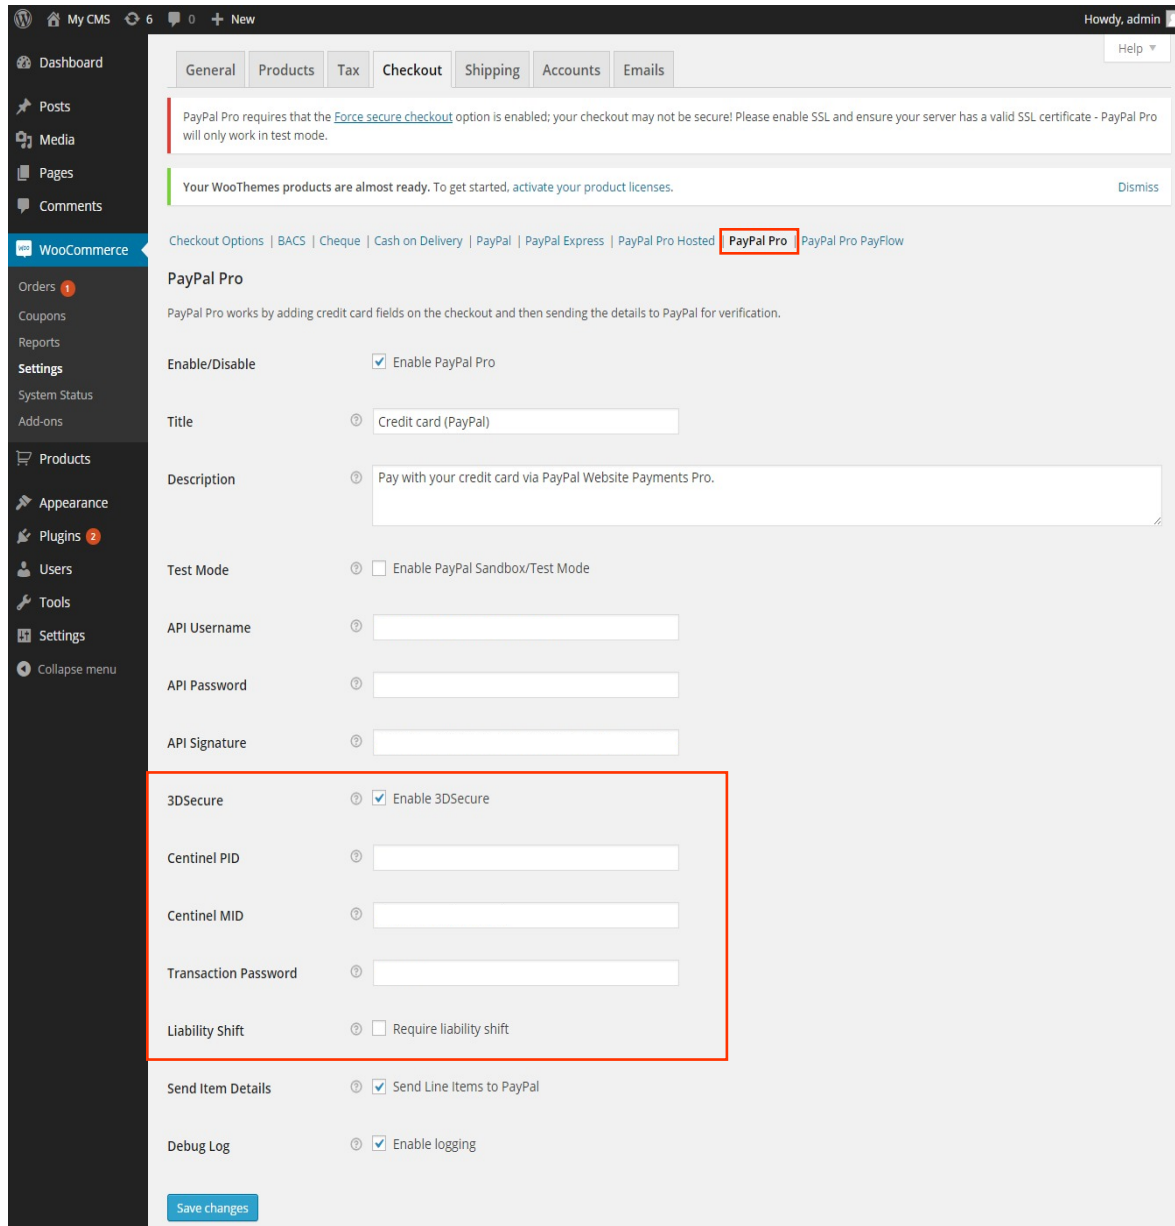

- 1 Log into your WordPress admin panel.
- 2 Click "WooCommerce > Settings" and select "Checkout".
- 3 Click on the "PayPal Pro" Option in the secondary top navigation.

The screenshot shows the WordPress admin dashboard with the WooCommerce settings page open. The 'Checkout' tab is selected in the top navigation bar. In the secondary top navigation, the 'PayPal Pro' option is circled in red. The main content area shows the 'Checkout Process' section with a checkbox for 'Enable the use of coupons' checked. A warning message at the top states: 'PayPal Pro requires that the [Force secure checkout](#) option is enabled; your checkout may not be secure! Please enable SSL and ensure your server has a valid SSL certificate - PayPal Pro will only work in test mode.'

- 4 Configure the following fields for PayPal Pro and click "Save Changes". (be sure to disable Bill Me Later)

My CMS 6 0 + New Howdy, admin

Dashboard | Posts | Media | Pages | Comments | **WooCommerce** | Orders 1 | Coupons | Reports | Settings | System Status | Add-ons | Products | Appearance | Plugins 2 | Users | Tools | Settings | Collapse menu
