Towable

For Whatever's Behind You

**2024 PRODUCT
OVERVIEW**

TOWABLE 101

FACTS ABOUT TORQUE

The torque that is to be applied to lug nuts on a typical aluminum trailer wheel varies with the size of the wheel studs on your trailer. Common size studs on a trailer often are 1/2", 9/16" or 5/8". To the right is a table to guide you as you are installing the wheels to your trailer application

Lug Size	FT/LBS Torque
1/2"	90-120
9/16"	120-140
5/8"	140-160

Being sure wheel mounting nuts (lug nuts) on trailer wheels are tight and properly torqued is an important responsibility that trailer owners and users need to be familiar with and practice. Inadequate and/or inappropriate wheel nut torque (tightness) is a major reason that lug nuts loosen in service. Loose lug nuts can rapidly lead to a wheel separation with potentially serious safety consequences.

We recommend the importance of re-torquing the lugs after the first 25-50 miles.

TRAILER TIRE AND WHEEL COMPATIBILITY TEST

Verify that the load capacity of the selected wheel is greater than the load capacity of the selected tire. If one of the two were to fail due to exceeded load capacity, you would much rather have the tire fail and ride on the rim rather than the entire assembly fail. Proper load capacity matching ensures safety and can save you money in the case of a failure.

Example: If your selected tire's load capacity is 1400 pounds, the wheel you select needs to exceed or equal 1400 pounds.

Tire and wheel assemblies shall be installed in accordance with ANSI TSIC-1 Recommended Practice.

The sum of the maximum load ratings of the tires fitted to an axle shall not be less than 110 percent of Gross Axle Weight Rating (GAWR) specified by the RV manufacturer as shown on the certification label.

Axle Capacity	3500# + 10% = (3850#)	4400# = 4840#	5200# = 5720#	6000# = 6600#	7000# = 7700#	8000# = 8800#
---------------	-----------------------	---------------	---------------	---------------	---------------	---------------

Minimum Tire & Wheel Capacity	1925#	2420#	2860#	3300#	3850#	4400#
-------------------------------	-------	-------	-------	-------	-------	-------
