

Recruiting and Onboarding with signNow: EGS, Inc.

EGS, Inc. is a nationwide provider contract staffing in engineering, architecture, environmental and information technology.

Key challenges before using signNow:

- ✗ Onboarding and background check paperwork was inefficient and slow.
- ✗ Difficult and inconsistent signing experience for potential candidates.
- ✗ Existing e-signature solution was expensive and complex.

Results achieved with signNow:

Digitized document workflows, which eliminated the need to print, organize, and store paper in the office.

All employees launched and utilized signNow in minutes with its easy-to-use interface.

Candidate accurately signed and submitted documents in minutes.

Recruiters streamlined their hiring processes and increased productivity.

I use signNow for every job position that I recruit for. As soon as I get a new job order I prepare a job description and my next step is to set up my template group in signNow for potential candidates to fill out and sign. Each group will contain a Qualifications form, a Right to represent form, and a Rate worksheet. This process used to take me an hour but thanks to signNow, it only takes 5 minutes to prepare!

Suzanne Lipecky

Senior Technical Recruiter
