

# PRIIP-KID Service - How it works

## Content

Product manufacturers provide SIX with product information

**Legal information for all EEA countries is provided** by legal partner in respective languages

SIX combine this information with the necessary **underlying and risk profiling data**

## Distribution

Third parties also feed **KIDs and other pre-sales documents into the Doc Hub** for further distribution, providing a **single point of access for advisors**

Generated documents are **immediately available** in the Doc Hub

Every document is **archived for 10 years**

Docs from third parties

**Doc Hub**

## Retrieval

Integration into core banking systems, or access via a web-interface enables advisors to **share documents with clients in time before sale**

Every document retrieval is **tracked and archived for 10 years** to provide an audit trail
