

by: Southeastern Ornamental Iron Co, Inc.
"Quality Without Question"

All of our pedestrian gates are custom built per order. We build gates to fit any application such as: merely decorative, high end security with card readers and electric strikes, courtyard entrances, garden gates, and pool access gates.

Our gates are constructed of aluminum, iron, stainless steel, copper, or bronze.

Lock sets can be applied to any gate if required.

You may select an existing design, send a sketch or image, or we will be happy to assist you in creating your own custom design.

Gates come as a complete set which includes:

- Lever (selected)
- Posts (unless not required)
- Self closing vinyl hinges (standard)
- Hardware required for installation (If not local)
- electric strike pre-assembled (if required)

See our gallery online @
