

Print on both side of one sheet of paper.  
Cut out. Fold and paste the head only.  
Pinch the neck and gently push the tail up  
between the wings . it will create a crease on  
the wings that will create a pretty bird model.  
(Thanks Lisa for the help on writing this ^^)

# Paper Birds

These birds are of my very own inven-  
tion. Don't steal the model or resell it,  
thank you very much. Personal use only.
