15-413: Introduction to Software Engineering

Jonathan Aldrich

Assignment 1: Case Study Reflection

Due: Friday, September 2, 11:30am (hardcopy at beginning of class)
50 points

Choose one of the case studies listed for Assignment 1 in the Assignments sections of Blackboard. Write a 1-page (minimum 500-word) response describing:
- What was surprising/interesting/insightful about the case study?
- How do the experiences in the case study relate to your own software development experience?

Different people bring different experiences to the assignment; feel free to spend more time on one question or the other according to your background. This assignment will be graded on the quality of your discussion, good English writing skills, and evidence that you read the case study.

IMPORTANT: Some of the case studies are confidential. Please do not distribute outside of this course.
