Raise awareness on the Environmental Liability Directive (ELD) in Slovenia by 20%

Boost support for environmental liability implementation instruments

EcoLexLife

LIFE16 GIE/SI/000728

## SUB-OBJECTIVES

- **Raise awareness** among key stakeholders regarding **Environmental Liability Directive** – ELD (Directive 2004/35/EC) and **influence change in their behaviour**;
- Identify the **shortcomings in the implementation** of the ELD in Slovenia and prepare **suggestions for improvements**;
- Establish **dialogue** among key stakeholders;
- Assist in the development of **ELD specific insurance policy**;
- Transfer **good practice** from abroad.

## IZVEDENE AKTIVNOSTI IMPLEMENTED ACTIONS

Development of the  
EcoLex portal

Development of four interactive  
online tools for identifying and  
managing environmental risks

Organisation of awareness-  
raising workshops and  
webinars

Formulation of proposals for  
improvements regarding the ELD  
and national environmental  
legislation

Development of an  
Environmental Damage  
Report Form

Establishing cooperation among  
key stakeholders - MOE, EPA,  
NGO's and others

Delivery of specialized  
workshops for representatives of  
competent national authorities

Organisation of international  
conferences on  
environmental liability

Development of a questionnaire for  
assistance with the preparation of  
an ELD insurance product

RAISING AWARENESS ON ENVIRONMENTAL LIABILITY DIRECTIVE IN SLOVENIA

- EcoClipping
- Legislation
- Environmental Guide
- Risk Assessments

ENTRY TO THE ECOLEX PORTAL

## EcoClipping

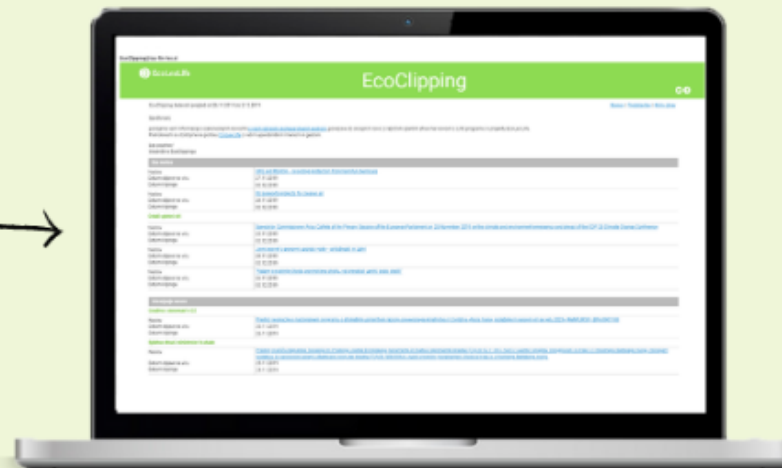

### **ECOCLIPPING:**

Weekly emailing notification service on individually selected environmental topics of user interest, which includes updates on environmental legislation and other environmental news.

Amendments and novelties of Slovenian and European environmental legislation

Articles and other news about environmental protection

Personalized selection of areas

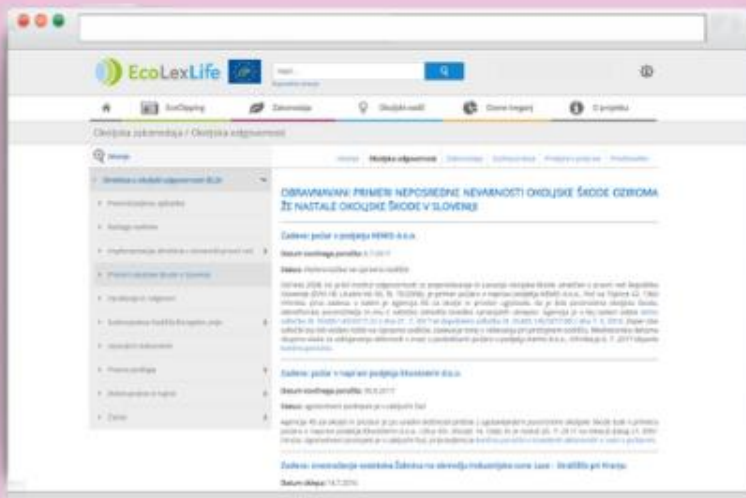

Environmental legislation

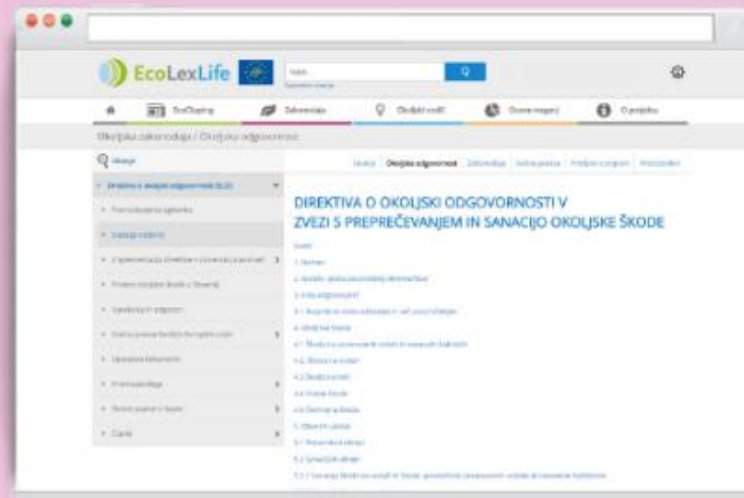

## LEGISLATION:

The first comprehensive online collection of currently applicable environmental legislation in Slovenia. It also includes case law and a detailed explanation of the environmental liability system.

### ALL ENVIRONMENTAL LEGISLATION IN ONE PLACE

### DETAILED EXPLANATION OF ELD AND ENVIRONMENTAL LIABILITY SYSTEM

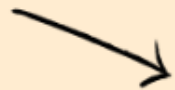

*Risk assessment tool*

## ENVIRONMENTAL RISK ASSESSMENT TOOL:

The purpose of the risk assessment tool is to provide the target audiences as well as stakeholders with a tool for identifying their exposure to the risk of causing environmental damage. The final result is a detailed report with explanations and recommendations for managing risks.

It recognizes your environmental risks

It recommends preventive measures to reduce your environmental risks

**ENVIRONMENTAL GUIDE:**  
An interactive application that describes the main requirements of the environmental legislation. Each user receives a range of useful tips and advice on how to act in accordance with environmental legislation and good practices about how to improve the users current situation.

Think ECO,  
think ECOLEX!

The graphic features a dark blue background. At the top, a white rectangular box with green quotation marks contains the URL <http://ecolexlife.si/>. Below this, a white thought bubble contains the text "Think ECO, think ECOLEX!". To the right of the thought bubble is a silhouette of a human head in profile, facing right, with a green brain inside that is shaped like a tree.
