3 purple circles + 5 red circles = 8

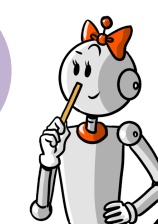

2 purple circles + 6 red circles = 8

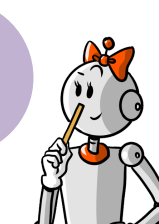

3 purple circles + 2 red circles = 5

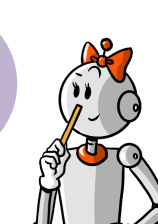

3 purple circles + 1 red circle = 4

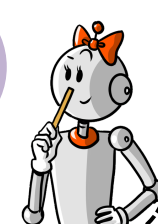

4 purple circles + 5 red circles = 9

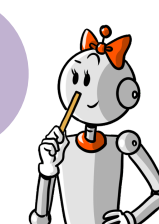

4 purple circles + 1 red circle = 5

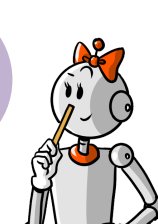

2 purple circles + 1 red circle = 3

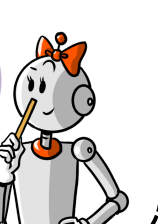

1 purple circle + 2 red circles = 3

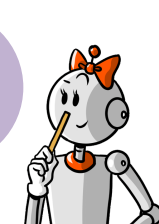

3 purple circles + 3 red circles = 6

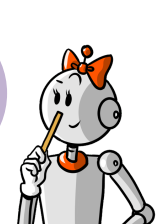

3 purple circles + 4 red circles = 7

2 purple circles + 2 red circles = 4

4 purple circles + 2 red circles = 6

3 purple circles connected to a circle containing the number 7. A gray box with a question mark is also connected to the number 7. A robot character is on the right.

2 purple circles connected to a circle containing the number 8. A gray box with a question mark is also connected to the number 8. A robot character is on the right.

1 purple circle connected to a circle containing the number 5. A gray box with a question mark is also connected to the number 5. A robot character is on the right.

A gray box with a question mark and 1 red circle connected to a circle containing the number 4. A robot character is on the right.

4 purple circles connected to a circle containing the number 9. A gray box with a question mark is also connected to the number 9. A robot character is on the right.

4 purple circles connected to a circle containing the number 7. A gray box with a question mark is also connected to the number 7. A robot character is on the right.

2 purple circles connected to a circle containing the number 5. A gray box with a question mark is also connected to the number 5. A robot character is on the right.

A gray box with a question mark and 2 red circles connected to a circle containing the number 3. A robot character is on the right.

2 purple circles connected to a circle containing the number 4. A gray box with a question mark is also connected to the number 4. A robot character is on the right.

A gray box with a question mark and 4 red circles connected to a circle containing the number 6. A robot character is on the right.

2 purple circles connected to a circle containing the number 5. A gray box with a question mark is also connected to the number 5. A robot character is on the right.

3 purple circles connected to a circle containing the number 6. A gray box with a question mark is also connected to the number 6. A robot character is on the right.
