PRESS RELEASE

**JAMIA HAMDARD RANKED NO. 1 IN GLOBAL LIFETIME SCHOLAR-GPS RANKING IN
THE FIELD OF DRUG DELIVERY**

New Delhi, July 22, 2024: Jamia Hamdard's global ranking has been boosted with the top place in the field of **'Drug Delivery' (No. 1 in Global Lifetime Ranking)** by ScholarGPS. The 2nd and 3rd spot have been attained by the Changchun Institute of Applied Chemistry, Chinese Academy of Sciences, China and University College London, United Kingdom, respectively. ScholarGPS International Institutional Rankings in Fields, Disciplines, and Specialties are based on the quality and quantity of active scholars in each institution who are highly productive (number of publications) and have generated outstanding work of meaningful impact (citations) and excellent quality (h-index). Data used in the calculations of institutional rankings are based on the lifetime or prior five-year contributions of the included scholars, weighting each publication and citation by the number of authors, and excluding self-citations. Uniquely, ScholarGPS® rankings are available separately for academic institutions (universities and colleges), and non-academic institutions (private or public industries including health care systems, and research institutions). Institutional rankings are also available for each country. Top ScholarGPS ranking is yet another feather in the cap of Jamia Hamdard's national and international rankings.

The **Chancellor Janab Hammad Ahmed** and the **Vice Chancellor Prof. (Dr.) M. Afshar Alam** congratulated faculty and students of School of Pharmaceutical Education and Research (SPER) and their collaborators for this accomplishment.

(Md. Tauhid Alam)
