## DEPARTMENT OF REHABILITATION SCIENCES

The Department of Rehabilitation Sciences has been conducting the post graduate programmes since 1998 and undergraduate programmes since 2001. The Ph.D. programme commenced from 2017. The academic programmes are recognized by the relevant councils and are in consonance with the national and international bodies.

The jobs prospects for graduate and postgraduate students of Occupational Therapy and Physiotherapy have been very good. Many of our alumni are holding responsible positions in government and private institutes nationally. Students are in great demand for jobs abroad and many of them are pursuing advance studies as well. Department has a good student to teacher ratio and is well equipped with modern infrastructure.

## OCCUPATIONAL THERAPY

The practice of Occupational Therapy involves the therapeutic use of occupations, including everyday life activities with individuals, groups, populations, or organizations to support participation, performance, and function in roles and situations in home, school, workplace, community, and other settings.

## PHYSIOTHERAPY

Physiotherapy means physiotherapeutic system of medicine which includes examination, treatment, advice and instructions to any person preparatory to, or for the purpose of, or in connection with movement dysfunction, bodily malfunction, physical disorder, disability, healing and pain from trauma and disease, physical and mental conditions using physical agents including exercise, mobilization, manipulation, mechanical and electrotherapy, and devices or diagnosis, treatment and prevention.

### Career in Occupational Therapy

Occupational therapy is a health profession that focuses on helping individuals with mental or physical illness/disabilities to achieve the highest level of functioning and wellness possible, in their daily lives. Occupational therapy is a skilled treatment that helps individuals with disabilities to achieve independence in all facets of their lives. This includes performance of all daily normal activities in work, play, leisure, etc.

Most of the hospitals and schools whether public or private have separate wings for occupational therapy, which clearly indicates that great number of opportunities are available in India as well as abroad.

After doing occupational therapy programme one can be a private practitioner, academician, or a research scholar, in different occupational therapy colleges and institutes.

### Career in Physiotherapy

Physiotherapy professionals work in government and private hospitals and clinics, schools, in centres for elderly people, in non-government organisations (NGOs), and as a physiotherapist of the Indian sports teams in various national and international sporting events.

Career options are also available as researcher, research associates in reputed research organisations like IIT and ICMR and as academicians/teachers in different physiotherapy colleges and universities to impart higher education.

## REHABILITATION CENTRE

### ACCREDITATION

In recognition of the University's contribution in teaching and research, the National Assessment and Accreditation Council (NAAC), conferred upon the University 'A' Grade in 2011 and 2018.

Securing a place amongst top 25 Universities of India, Jamia Hamdard has also been identified for Institution of Eminence tag in 2018.

### RECOGNITION

The courses offered at Jamia Hamdard in Rehabilitation Sciences are recognized by:

- Delhi Council for Physiotherapy and Occupational Therapy (DCPTOT).
- All India Occupational Therapy Association (AIOTA).
- World Federation of Occupational Therapists (WFOT).

### PLACEMENT

Students who graduate from Department of Rehabilitation Sciences get 100% placements.

Graduate and postgraduate students are placed in government sectors, corporate health care organisations, NGOs, school setups etc. in India and abroad.

### EVENTS IN THE DEPARTMENT

Department of Rehabilitation Sciences keeps pace with the latest and the best in the field, by organising:

- International workshops and seminars.
- Invited talks by experts of national and international eminence.
- Health camps and awareness programs.
- Alumni meet.
