GROWING CLOUD NATIVE TOGETHER

FOREWORD

KCD Oslo 2024: First-ever Cloud Native and Kubernetes Days taking over Norway with a blast!

KCD has never been held in Norway before so we became pioneers in a sense, taking the initiative and organizing the very first edition of KCD ever held in Norway this year. From the very first months of the planning process we have seen that the locally community was really looking forward to having a tech forum like that. We've received and overwhelmingly positive response - not only from the community members but also from the local organizations.

There's no doubt that the Norwegian community is strong and vibrant, and the country is at the forefront of innovation and technological advancement, with strong adoption of cloud native digital infrastructures, widespread use of Kubernetes and related tools and advanced end user adoption, ranging from the health sector to telco to private enterprises and nationwide public enterprises.

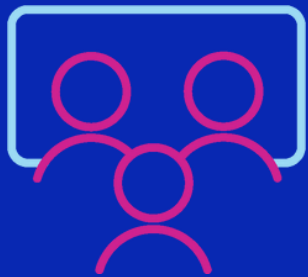

SPEAKERS & SESSIONS

Skillful, talented speakers represented by mostly local technologists in addition to few international speakers delved into cutting-edge advancements in cloud native digital infrastructures and the widespread adoption of Kubernetes, drawing in over 150 eager attendees.

That's a lot of clusters

Håvard Elnan - Norsk Helsenett

From localhost to cloud – deploying applications with style in NAV

Hans Kristian Flaatten - NAV

The road to self-service is paved with hacks, tears and lots of yaml

William Aass Dahlen -
Telenor Norway & Vaibhav Bansa -
Telenor Norway

KCD OSLO ON LINKEDIN

🚀 What a day! The first Kubernetes Community Days KCD Oslo was a great experience! I am massively impressed by the organizers' work, there were no indication this wasn't something that had been done for years...Two tracks packed with interesting and educational presentations.

🥳 Thank you for putting this together! It was a great event!

🤝 The sense of community, the gathering of awesome people, the knowledge flowing, it was simply astonishing. We will definitely come back next year, much bigger and better.

Thank you @KCD Oslo for having me to the second keynote of the event.

The vibes were amazing, the venue was great and the speakers dinner was fantastic. Happy I manage to attend the first #kcd of 2024 and my first in the Nordics.

STATISTICS

Despite the challenges and the unknowns of organizing this type of event for the very first time, it's amazing to see how much engagement, interest and attention it has received from the community. We are proud of being given the opportunity to create an arena that brings together local cloud native community to share experiences, learn from each other and inspire each other. We're looking forward to making it an even bigger event next year!

Out of 150 sold tickets an exciting 97% of attended the event in-person, stretching the venue provided by Microsoft Norway to its max capacity. Vibrant, engaging discussions boosted the overall excitement and brought fresh perspectives to the local cloud native community.

ORGANIZATIONS

We were thrilled to see the diverse representation of organization types at our event, ranging from public and private sector end-users to consulting firms and vendors.

The wide range of attendees reflects the growing interest and adoption of cloud native digital infrastructures and Kubernetes across different sectors of the industry.

WHAT ATTENDEES SAID

“ It was a great experience and vibe. I believe everyone got some good out of it. Thanks for the great organisation. I really appreciate it 🙏 ”

“ The inaugural KCD Oslo was amazing and inspiring, providing me with the opportunity to connect with a technologically savvy community.”

“ Fantastic conference, and good turnout!”

“ Very fun to see all the engagement around Kubernetes here in Norway.”

“ All in all, an experience that added flavor and which I'm planning on being part of next year as well.”
