## Curriculum

Except for subjects exclusively provided for international students, such as Japanese Language, international students will basically take the same classes as Japanese students. As most classes are conducted in Japanese, except those in the Faculty of Global Management, \* a level of Japanese proficiency sufficient to understand specialist lessons is required.

\*In the Faculty of Global Management, about 60% of the subjects are taught in English.

### Note

- The score from either the first (June) or second (November) 2024 Examination for Japanese University Admission for International Students (EJU) is required.
- The score from an English proficiency requirement (TOEIC®, TOEFL iBT®, or IELTS) test should be within two years before the first day of the application period.
- Applicants may not apply to two or more faculties that hold their exams on the same day.
- Essay writing questions will be in Japanese and must be answered in Japanese also.
- Applicants may not proceed to Second Screening unless they pass First Screening.
- In the interview at the Faculty of Science and Engineering, questions may be asked to confirm the fundamental academic ability in mathematics, physics, chemistry, biology, etc.
- If you are accepted, the deadline for enrollment procedures from outside Japan is February 7, 2025 (Fri).

## » Introduction to the Faculty of Global Management

The Faculty of Global Management is the only faculty in Chuo University where students can graduate and obtain a bachelor's degree solely through classes taught in English. Approximately 20% of the students in this department are international students, and there are many exchange students from partner universities, so students of various nationalities study together.

The curriculum is characterized by classes on global business management and international regional and public affairs, as well as small-group seminar-based courses that allow for highly concentrated study. The faculty also offers a wide variety of experiential classes such as short-term study abroad programs, company visits, and internships, creating an environment conducive to the development of global human resources.
