

Yahoo Japan Corporation FY2010-2Q Business Results

(Jul.-Sept. 2010)

October 22, 2010

Statements made at the meeting or included in the documents that are not historical facts are forward-looking statements about the future performance of Yahoo Japan Corporation and its consolidated subsidiaries and affiliates.

The Company cautions you that a number of important factors could cause actual results to differ materially from those discussed in the forward-looking statements. Such factors include, but are not limited to, the items mentioned in the Risk Factors in "Results for the Three Months ended September 30, 2010."

The Company reclassified its business segments as of FY2010-1Q. Figures for FY2009 have been retroactively adjusted for your reference only.

The unauthorized use of the information or the data in this document is not permitted.

FY2010-2Q Highlights – Financial Data

Despite a decrease in revenue due to transfer of the research business to MACROMILL, INC., quarterly revenue increased mainly led by listing advertising, display advertising, information listing and Yahoo! Shopping-related revenues.

Although operating and ordinary incomes increased more than 10%, booking of an extraordinary loss caused a lower growth rate for quarterly net income.

	2010-2Q	2009-2Q	YOY
	2010-2Q	2009-2Q	Change
Revenue	711	680	4.5%
Operating Income	384	344	11.7%
Ordinary Income	385	341	12.8%
Quarterly Net Income	214	200	6.8%

■ Listing advertising through advertising agencies (Paid search advertising [Sponsored Search] and interest-based advertising [Interest Match])

- Increased advertising for travel/transportation/leisure as well as for cosmetics/toiletries by major advertisers contributed to year-on-year and quarter-on-quarter increases in listing advertising revenue.
- Advertising from Internet information site-related companies contributed to increase in mobile listing advertising revenue.

Display advertising

- Brand Panel revenue increased on a year-on-year and a quarter-on-quarter basis.
- Industrial sectors, such as autos (transportation equipment) and finance/insurance/securities contributed to increase in behavioral targeting advertising revenue.
- Revenue from display advertising for iPhone, marketing of which started in the previous quarter, increased mainly from major advertisers such as cosmetics/toiletries, foodstuffs and other companies.
- Internet information site-related companies contributed to growth in mobile display advertising revenue.

■ Research-related business

- Due to transfer of research business to MACROMILL, INC., research-related revenue decreased less than ¥700 million (revenue and profit booked only for one month).

Media Business	2010-2Q	2009-2Q	YOY Change		
Revenue	264	246	7.5%		
Operating Income	139	114	22.2%		

FY2010-2Q Highlights – BS Business

Listing advertising through online order

(Paid search advertising [Sponsored Search] and interest-based advertising [Interest Match])

- Increase in the number of online agencies contributed to favorable growth in the number of PC and mobile phone accounts. Consequently, listing adverting revenue also increased on a year-on-year and a quarter-on-quarter basis.

Data center-related revenues

- Cloud computing-related revenues of IDC Frontier Inc. increased.

Information listing revenues

- Information listing-related revenues of Yahoo! Real Estate and Yahoo! Rikunabi increased year on year.

BS Business	2010-2Q	2009-2Q	YOY Change	
Revenue	190	175	8.6%	
Operating Income	94	76	22.8%	

FY2010-2Q Highlights – Consumer Business

E-Commerce related revenues (Yahoo! Auctions and Yahoo! Shopping)

- On Yahoo! Shopping, various sales promotions conducted in conjunction with 11th Anniversary of Start of Service and Softbank Hawks League Victory anniversary campaigns resulted in a year-on-year increase of more than 20% in guarterly transaction value.
- Transaction value of Yahoo! Auctions declined year on year.
- With the increase in transaction value of Yahoo! Shopping, revenues from settlement services increased.

■ Yahoo! Premium membership revenues

- The number of Yahoo! Premium member IDs as of September 30, 2010 hit a record high of 7.63 million.

Consumer Business	2010-2Q	2009-2Q	YOY Change
Revenue	254	256	-1.1%
Operating Income	168	171	-2.2%

The Company started to offer new services in collaboration with a variety of external partners in order to strengthen its efforts in the rapidly-growing online game market.

■Tie-up with SQUARE ENIX CO., LTD.

On August 9, 2010, Yahoo! JAPAN started to offer Sengoku IXA (official version), a browser game for PCs, with a goal of developing a broader customer base in addition to conventional console gamers.

■Tie-up with DeNA Co., Ltd.

On October 7, 2010, the Company unveiled Yahoo! Mobage (official version), a social game platform for PCs, and started to offer 100 game titles from approximately 70 domestic and foreign partners. The company's goal is to become the leader in the PC social game market in Japan by combining Yahoo! JAPAN's comprehensive capabilities including the ability to pull in more customers, DeNA Co., Ltd's game development and operation know how, and Mobage-town's user base.

SENGOKU IXA

Yahoo! Mobage Kaito Royale

Review of FY2010-2Q Business Outlook

Listing advertising and display advertising quarterly sales rose substantially year on year.

The Company achieved operating income and ordinary income at the upper end of the projection range, as sales promotion expenditures were lower than forecast even though we run TV commercials and other advertising drives, such sales promotions as a Yahoo! Points award campaign.

On the other hand, quarterly net income fell below original projections because of a settlement payment due to changes in the conditions of a media use contract and search technology and other services contract with business partners.

	Actual	Forecast (As of July 27, 2010)
Revenue	711	690-720
Operating Income	384	366-386
Ordinary Income	385	368-388
Quarterly Net Income	214	218-230

FY2010-3Q Business Outlook

Focusing mainly on advertising-related sales, we will work to achieve year-on-year growth in quarterly sales.

We will aim to expand e-commerce-related sales heading toward the end-of-sales campaign, and to increase revenues from paid digital content, based on aggressive sales promotion activities.

* We expect that the transfer of our research business to MACROMILL, INC. will reduce quarterly revenue by about ¥1.2 billion year on year.

Cost of sales forecast to decline, primarily because of the transfer of the research business. We plan to make sales promotion, advertising, and other expenditures as necessary to expand ecommerce and paid digital content-related transaction values.

As a result, SG&A expenses may increase by about ¥1.0 billion compared with last year's third quarter.

	2009-3Q (Actual)	2010-2Q (Actual)	2010-3Q (Forecast)
Revenue	709	711	711-750
Operating Income	364	384	377-400
Ordinary Income	364	385	376-399
Quarterly Net Income	208	214	217-231

Since the business environment of the Group can fluctuate substantially in the short term, it is extremely difficult to forecast performance for the full fiscal year with a high degree of confidence. Therefore, the Group announces its financial results on a quarterly basis together with the business outlook only for the following quarter.
